1. INTRODUCTION

1.1. Objective of the document

This manual provides information on how to use the Service of Documents (SoD) & Taking of Evidence (ToE) Reference Implementation. This system is built in the context of:

- The Regulation (EU) 2020/1784 of the European Parliament and of the Council of 25 November 2020 on the service in the Member States of judicial and extrajudicial documents in civil or commercial matters (service of documents), and on
- The Regulation (EU) 2020/1783 of the European Parliament and of the Council of 25 November 2020 on cooperation between the courts of the Member States in the taking of evidence in civil or commercial matters (taking of evidence).

It describes the Reference Implementation's functionality allowing the management and exchange of requests for the following judicial instruments:

- Service of Documents (SoD)
- Taking of Evidence (ToE)

By using the RI, authorized users, assigned to appropriate roles, can fill in the available forms. They can then send these legal forms to Competent Authorities in other Member States. Users without appropriate roles do not have access to the RI and cases.

1.2. Intended Audience

The intended audience of this document is composed of the following stakeholders:

- DG JUST technical and business staff
- MS technical and business staff adopting/using the RI

1.3. Applicable documents

2. GETTING STARTED

The aim of the Reference Implementation was to make it as intuitive and as mistake proof as possible, and to retain the same look and feel across the SoD and ToE instruments. Where a function enabling doing something is active, an appropriate button is visible and clickable. Where an action is permissible, an appropriate button is enabled. Where a function is inactive, that function button is disabled.

A user's role allows execution of certain actions depending on the context. As a result, some of the screenshots in this manual may have additional or missing icons and functionalities that practitioners are unlikely to experience in their real-life use. For example, the user role Supervisor can add and/or remove users to all cases in their authority. It is likely that relatively few users will have this role, but the user manual describes the addition and/or removal of users with screenshots of icons that may be invisible to most.

2.1. Accessing the RI

Below is an example on how to access the RI via the Keycloak route. It is likely, however, that each Member State will have a different national access method.

The RI can be accessed only by authorised and authenticated users. There is no public access page. One will need either a configured and enabled **Keycloak account** to access the Reference Implementation or **a national method that will be provided by national representatives.**

Follow the steps described below to access the RI via Keycloak:

- ① Enter the address of the Reference Implementation in your web browser.
- ② You will be redirected to the Keycloak page:

Version: 2.8	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-03-18
--------------	--	-----------------

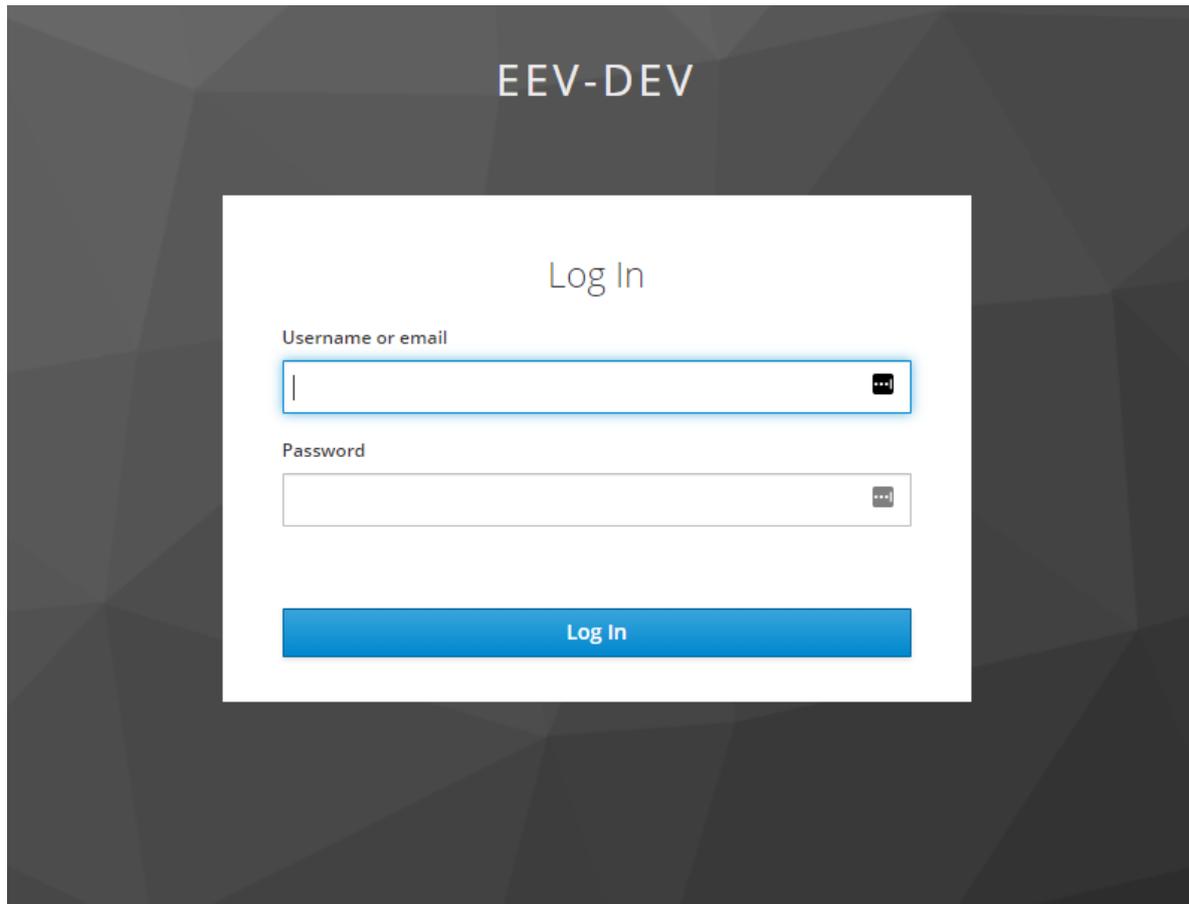

Figure 2: Keycloak authentication screen

- ③ Sign in with your Keycloak credentials.
- ④ If you belong to only one authority, you will be automatically redirected to it.
- ⑤ If you are assigned to more than one authority, you will be redirected to the ‘Select Authority’ page, where you can choose the authority to which you would like to log in.

NOTE: There is an option to remember the authority choice so that the System automatically redirects you to the selected authority after entering your credential set. You can change this authority any time. The process for changing it is described in section: [3.1.3 Switching authority](#). After selecting ‘Remember my choice in this browser’, this screen will not appear again until you clear cookies in your browser.

--------------	--	-----------------

The screenshot shows the 'SELECT AUTHORITY' interface. At the top, there are logos for the European Commission and JUstice Digital EXchange System (JUDEX), along with a user profile for Filip Wszystkowy. The main content area is titled 'SELECT AUTHORITY' and features a search bar with a magnifying glass icon and a 'Filter' button. Below the search bar, there are two columns: 'CRIMINAL' and 'CIVIL'. Each column has a 'Name' label and a list of court names with radio buttons. The 'CRIMINAL' column lists three courts: 'Sąd Rejonowy dla miasta stołecznego Warszawy w Warszawie', 'Sąd Rejonowy dla Warszawy Pragi-Południe w Warszawie', and 'Sąd Rejonowy dla Warszawy Pragi-Północ w Warszawie'. The 'CIVIL' column lists one court: 'Sąd Rejonowy dla miasta stołecznego Warszawy w Warszawie'. At the bottom left, there is a 'Cancel' button. At the bottom right, there is a checkbox labeled 'Remember choice in this browser' and a 'Select' button.

Figure 3: Select Authority screen

Exceptions

- **Access to the RI is denied** - an error occurred during the connection to the RI in the following cases:
 - You have no access to the domain(s) and sub-domain(s) of Reference Implementation,
 - You have no right to access the page of the RI you wanted to access.
- **Error message** - if the provided login and password are incorrect, an error is raised by Keycloak. In that case, a message is displayed explaining that the authentication failed.

2.2. Authority types

Each authority which participates in SoD & ToE processes (creates and sends a case, receives a case and receives a case forward) needs to exist in CDB, have bodyType value equal to any of (*COURT*, *BAILIFF*, *NOTARY*) and have a correct pair of instrument and competence assigned. The following rules have been defined:

Version: 2.8	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-03-18
--------------	--	-----------------

2.2.1. Creating a new request (the main form)

The RI restricts types of requests that can be created by authority according to instrument and competence. The following instrument and competence need to be assigned to an authority to enable request creation:

SODA - instrument: SD, competence: Transmitting Agency or Central Body

SODB - instrument: SD, competence: Transmitting Agency or Central Body

SODX – instrument: SD, competence: any

TOEA - instrument: TE, competence: RI - Requesting Court or Central Body

TOEL - instrument TE, competence: RI - Requesting Court or Central Body

TOEX – instrument: TE, competence: any

2.2.2. Selecting an executing authority at issuing side

During creating a new cross-border request (main form), the user selects an executing authority. The RI limits executing authorities according to the below rules (only authorities with appropriate instrument and competence can be selected in a search tool and can receive a new request):

SODA - instrument: SD, competence: Receiving Agency or Central Body

SODB - instrument: SD, competence: Assisting Authority

SODX – instrument: SD, competence: any

TOEA - instrument: TE, competence: Requested Court or Central Body

TOEL - instrument TE, competence: Competent Authority or Central Body

TOEX – instrument: TE, competence: any

2.2.3. Receiving a case forward

During sending a case forward, RI should limit executing authorities according to the following rules:

SODA - instrument: SD, competence: RI – Forwarded Authority

SODB - instrument: SD, competence: RI – Forwarded Authority

TOEA - instrument: TE, competence: RI – Forwarded Authority

TOEL - instrument TE, competence: RI – Forwarded Authority

NOTE: Forward was not implemented for SODX/TOEX cases.

2.3. User roles

The RI supports a role-based access control to ensure that access to online data and to the features of the system is limited only to user roles that have been previously granted such access rights. The set of access rights of a given user consists of all the combined access rights of all the roles granted to the respective user.

2.4. Electronic communication with Authority in another Member State

As Member States begin to use the Reference Implementation, Authorities will be connected and able to communicate electronically. If an Authority exists in CDB but has no eCodexPartyId parameter assigned, the ‘eCODEX’ icon will be presented to the user. Because of the missing configuration, the user will not be able to send any message to this Authority.

The screenshot shows a search interface titled "Search for competent authority". It includes a search criteria section with a "Name" input field and a "Search" button. Below this is a "SEARCH RESULTS" section with a table of results. The table has columns for "Name" and "Municipality". One of the results is highlighted with a green circle containing the number "1". This result is "CZ(5) Krajské státní zastupitelství Ústí nad Labem" with the municipality "Ústí nad Labem". To the right of the name, there is a red "e-CODEX" icon with a small 'x' next to it. Other results include CZ(1) Ústí nad Labem, CZ(2) Praha 1, CZ(4) Praha 3, and CZ(3) Praha 1t. At the bottom of the interface, there is a footer that reads "This Competent Authority data has been kindly provided by EJNI Atlas" and a "Select" button.

3. COMMON LAYOUT AND NAVIGATION

Following successful log in to the RI, you can see the content of the RI, and its persistent navigational elements:

- ① The header
- ② The top bar
- ③ The left-hand menu

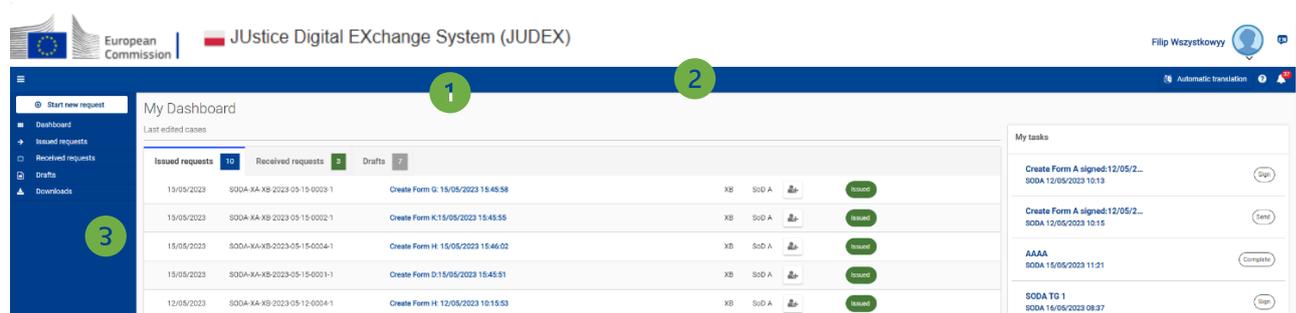

Figure 6: Common Layout and Navigation

3.1. The header

In the header, in addition to the Commission logo, the site name and the Member State flag, you can find the following actionable elements: a language switch, information about user's profile and log out button.

3.1.1. Select desired language of the RI

- ① Click **the language switch**, located at the top right corner of the header:

Figure 7: Language switch icon

② Select the language from a pop-up window:

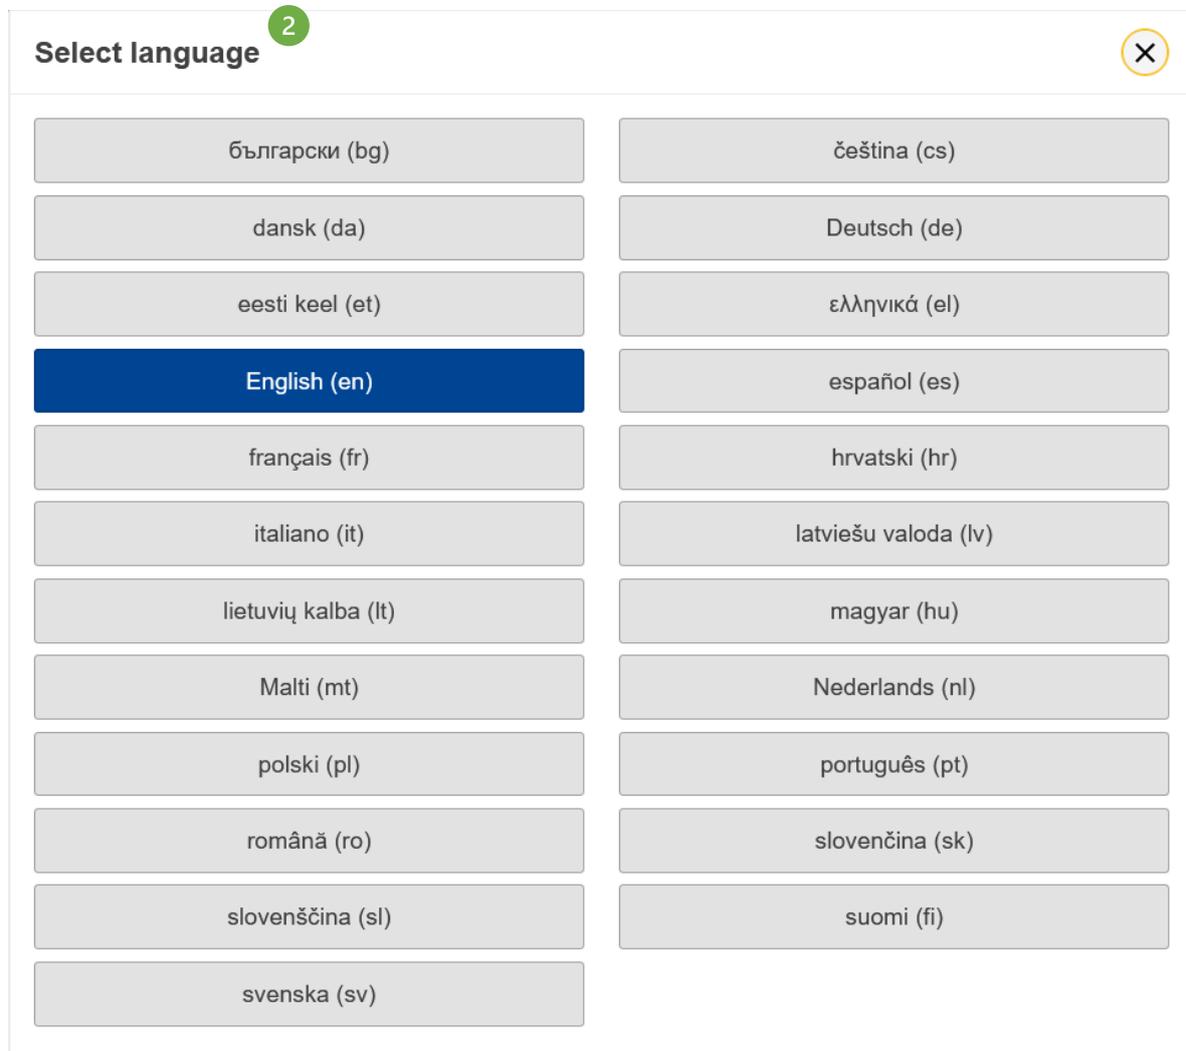

Figure 8: Select language

The language of the RI will switch to your selected language.

NOTE: Due to some languages not being delivered yet, this may cause errors in Reference Implementation.

3.1.2. User's Profile

At the top right corner, you can find information about the logged in user.

① Click **the profile picture** to display additional buttons:

3.1.4. Logout/Exit the RI

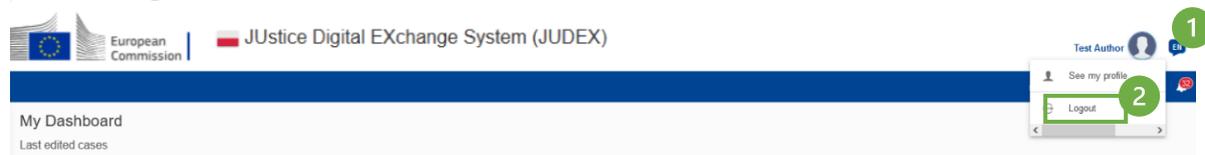

Figure 13: Logout/Exit the RI

If you want to exit the RI, the most secure way is to log out from your account:

- ① Click **your profile picture** at the top bar:
- ② Click **Logout** from a dropdown menu.

When the logout process succeeds, you will experience a successful logout and the RI closure.

3.2. The top bar

At the top bar, you can find additional actionable functionalities:

- Support information
- Notification bell
- Automatic translation

3.2.1. Display support information

- ① Click the **question mark** icon located on the right side of the top bar.

3.3. The left-hand menu

In the navigation menu you can find links to the main RI sections:

3.3.1. Hide/unhide left menu

Get more space for the content of the page by hiding the menu:

- ① Click an icon located on the left side of the top bar.

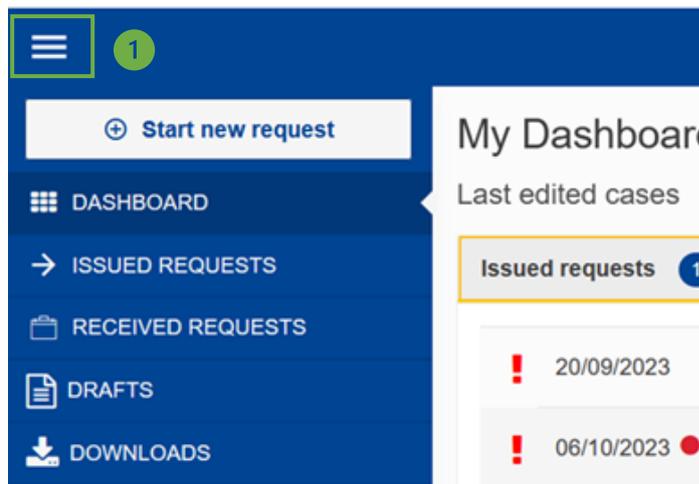

Figure 20: Hide/unhide left menu

- ② The menu will collapse. If you want to unhide the full menu again, click the same icon again.

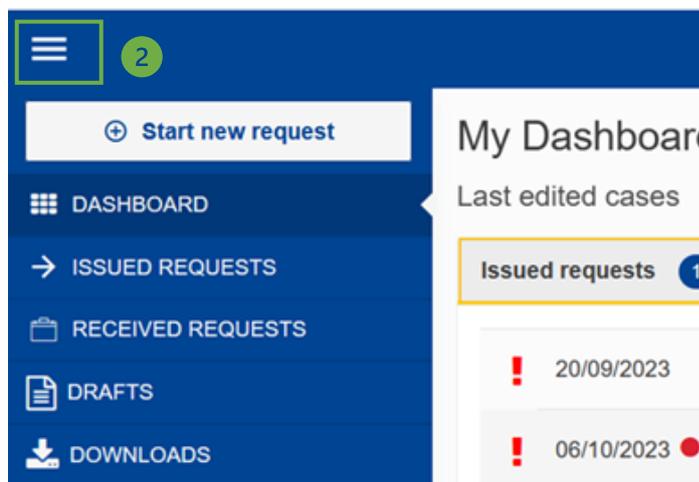

Figure 21: Hide left menu

3.3.2. Start new request

(Please note that the ‘Start new request’ button is only visible to users with roles that can initiate a new request who are assigned to authorities with appropriate instrument and competence. If a role cannot initiate a new request or authority does not have a competence to create and issue a request, this button will not be available to the user).

3.3.3. Dashboard

This view appears right after logging in.

- ① On this page, the user will find all basic issues divided to Issued requests, Received requests, and Drafts.
- ② Additionally, all users, except the Guest role, see ‘My tasks’ table on the right side of the screen, where they can see the cases to which they are assigned.

NOTE: Assigner, Supervisor, Dispatcher, Guest, and Statistics handler do not see any tasks in My tasks label.

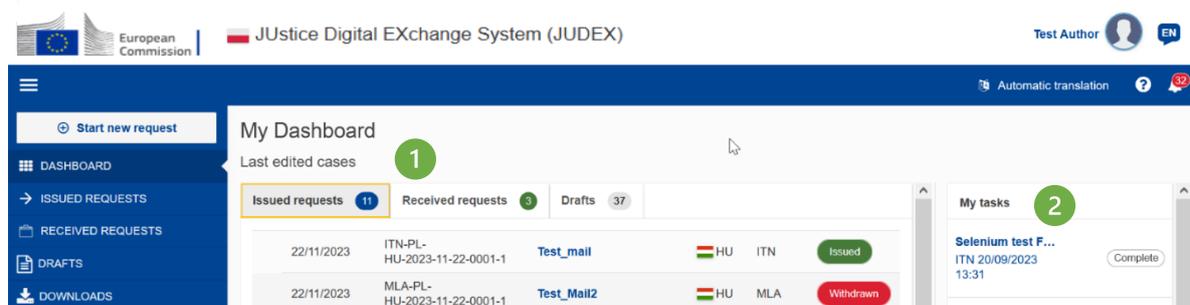

Figure 22: User's dashboard

3.3.4. Cases

Cases are divided to several different categories depending on their case advancement status:

- ISSUED REQUESTS - in this section, the user sees all cases that are in the Issued status and to which they are assigned/have access. When a case is sent to an Executing Authority, it is moved from DRAFTS to a list of ISSUED REQUESTS. To access the list:

① Click **Issued requests** in the menu.

The screenshot shows the 'Issued Requests' page in the JUDEX system. The left-hand navigation menu is visible, with 'ISSUED REQUESTS' selected and marked with a green circle and the number 1. The main area displays a table of issued requests. The table has columns for 'Issued date', 'Ref', 'Title', 'National Case No.', 'To', 'Type', and 'Status'. Two rows are shown: one for 'Test_mail' (ITN) and one for 'Test_Mail2' (MLA). The 'Status' column shows 'Issued' and 'Withdrawn' buttons respectively.

Figure 23: Issued requests

An issued case can be accessed only by:

- Users who are assigned to that case
- Privileged users with the ‘Supervisor’ and ‘Assigner’ role.

You can also find deadlines list for all issued cases in ‘Deadlines’ tab.

The screenshot shows the 'Deadlines' tab in the JUDEX system. The left-hand navigation menu is visible, with 'DEADLINES' selected and marked with a green circle and the number 1. The main area displays a table of deadlines. The table has columns for 'Due date', 'Ref', 'Title', 'National Case No.', and 'Expected response'. Several rows are shown, including 'Test_mail', 'ITN to closed', 'ITN received', and 'Selenium test DES_WF_09_TC_30'. The 'Expected response' column shows buttons like 'Notification in Reply', 'Confirmation of Receipt', and 'Investigation Outcome'.

Figure 24: Deadlines tab

- RECEIVED REQUESTS - in this part, the user sees all cases that are in the Received status and to which they are assigned/have access. When a case is received from another Competent Authority, it is visible on a list of RECEIVED REQUESTS. To display the list:

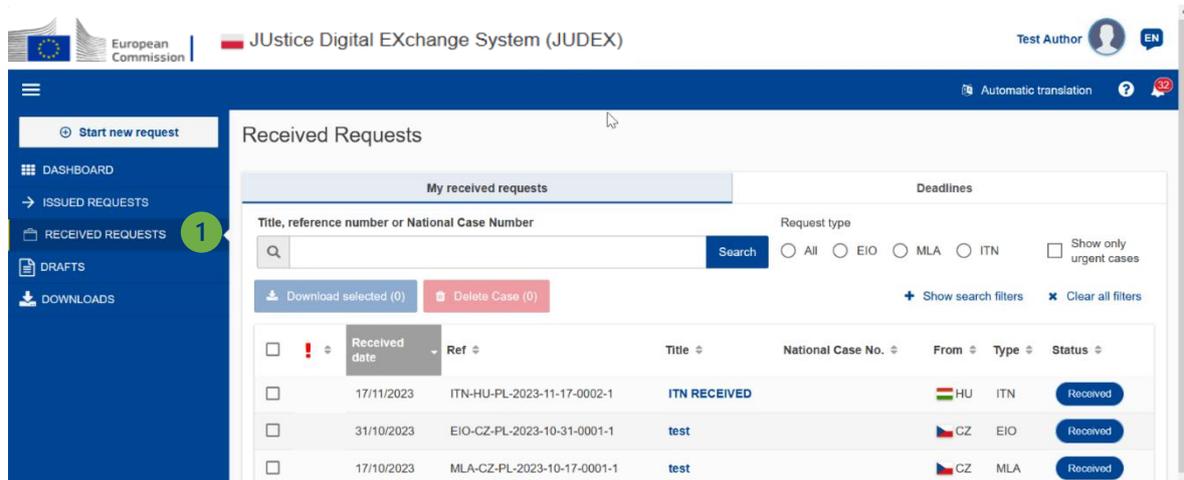

Figure 25: Received requests

- DRAFTS - in this part, the user sees all cases that are in draft status and to which they are assigned/have access. Cases which have not yet been sent to other Competent Authorities are stored in the list of drafts.

NOTE: Kindly remind that the **draft stage** is the status of entire case from its creation to the moment of sending. All statuses that the user will see, e.g., in the Overview tab, will be presented in capital letters.

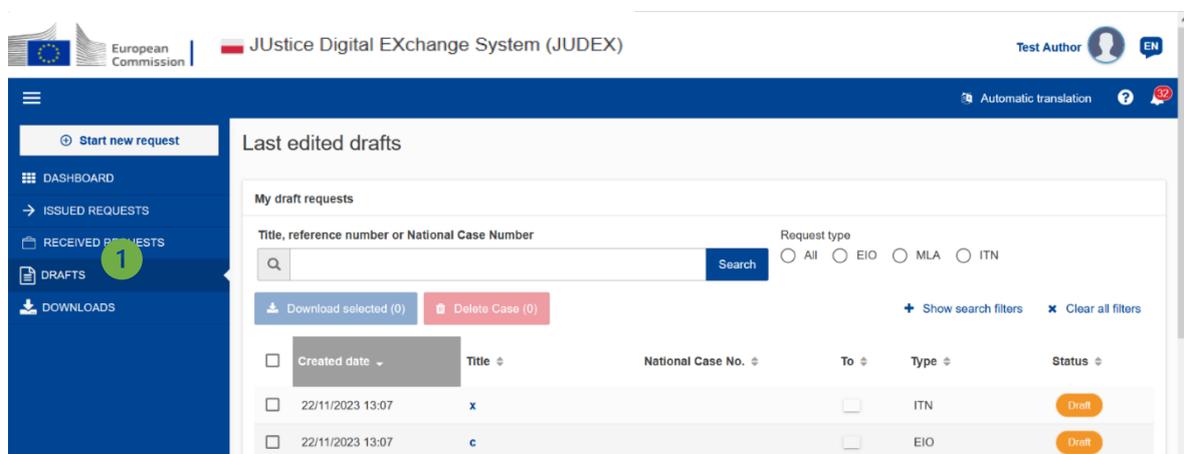

Figure 26: Draft cases

A draft case can be accessed only by:

--------------	--	-----------------

- The ‘Author’ of a draft (a user who created that case), as long as the case is still assigned to that user
- Users with the ‘Supervisor’ role
- Other users (such as Reviewer, Sender or Guest) who have been assigned to that case by a ‘Supervisor’ or ‘Assigner’.

3.3.5. Downloads

This section contains files that have been downloaded by users using the Download button in the specific case view. To see more details please go to chapter ‘[Download PDF and Print](#)’.

4. SEARCH FOR A CASE

6. CASE OWNERSHIP

Each case marked with a Global Case ID can have many local instances.

The first instance of the case appears in the moment of a new case creation. This instance is owned by the Issuing Authority to which the creating user with an Author role belongs.

Comments added to the Case are never sent to another Authority. They are accessible only locally, to users of one Case instance.

Every time the Case is being received by a Competent Authority, either from another country, or within one Member State via forward from another Competent Authority, a **new Case instance** is being created, owned by a Competent Authority that received the Case.

Please remember that communication between Competent Authorities via Service Messages (free form messages) is always two-way only, never multi-party. In case we have two Executing Authorities that can communicate with the Issuing Authority, they do it independently as there is no way of direct communication between the two executing authorities, because each of them has a separate Case Instance. Service Messages can be exchanged only cross-nationally (no internal communication within one Member State available).

7. SERVICE OF DOCUMENTS

7.1. Introduction

A Service of Documents (SoD) is a cross-border service of judicial and extrajudicial documents in civil or commercial matters in the Member States in accordance with [AD.1].

The SoD may also be issued for assistance in address enquiries where the address of the person to be served with the judicial or extrajudicial document in another Member State is not known.

7.1.1. Overview

The process between creating a new case and sending it occurs in the **Internal Workflow**. During that process, the case is accessible only for authorized users from your Issuing Authority.

When all steps of Internal Workflow are completed, the case can be sent to a chosen Executing Authority.

The process of communication between Issuing Authority and Executing Authority occurs in the **External Workflow**.

7.1.2. High Level End to End Process

1. A user with Author role in a competent authority creates the SoD.
2. The SoD request is reviewed by a user with Reviewer role.
3. The SoD is being signed and sent by a user with Sender role to an appropriate Executing Authority in another Member State.
4. Communication between Issuing and Executing Authorities takes place.
5. The receipt of the SoD request should be acknowledged within seven days.
6. A decision is provided within thirty days of SoD receipt.
7. The case can be withdrawn by Issuing Authority, and/or forwarded by Executing Authority to another Competent Authority for full SoD execution.

7.2. Create SoD

7.2.1. Initiate a request creation

7.2.1.1. Starting a new case - SODA

Version: 2.8	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-03-18
--------------	--	-----------------

Steps below are only applicable to users with 'Author' role.

To begin a process of requesting for service of documents, create a new case.

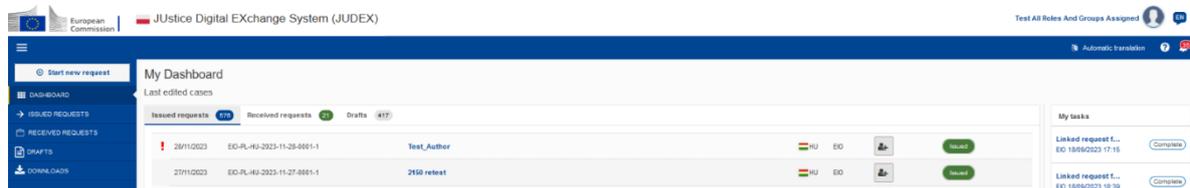

Figure 35: SoD - 'Start new request' button

① Click **Start new request** button in the left-hand menu.

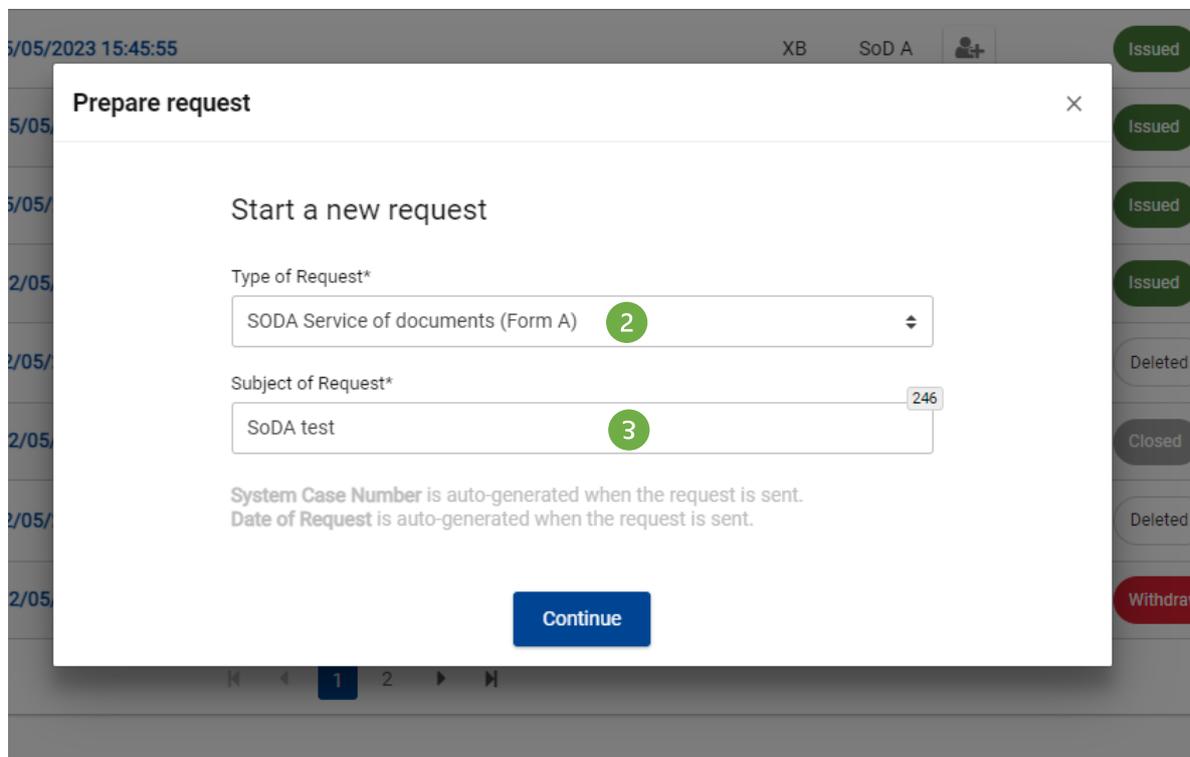

Figure 36: SoD - Selecting the request type and entering the request subject

② A pop-up window will appear. Select SODA from the **Type of request** dropdown list.

③ Fill in **Subject of request** and click **Continue**. If you wish to cancel, click 'x' button at the top right corner of the pop-up.

The screenshot displays the JUDEX interface for a 'SODA test' case. On the left, a navigation menu lists various sections, with 'REQUEST FOR SERVICE OF DOCUMENTS' highlighted in green and marked with a circled '5'. The main content area shows the form structure with sections 1 through 9 listed. Section 1, 'TRANSMITTING AGENCY', is highlighted in green and marked with a circled '4'. The form fields for section 1 include: 1.1. Identity (CAJCM-1 CIVIL Mediation Service/Broad Department Employee Mediators/Other Civilian), 1.2. Address (1.2.1. Street and number/PO box, 1.2.2. Phone, 1.2.3. Country, 1.2.4. Fax, 1.2.5. Email), 1.3. Title, and 1.4. Fax.

- ④ A new draft will be created and displayed with Form A ready for completion.
- ⑤ Complete **sections 1-9 and Request for Service of Documents section and Signature and Date section** of Form A by using the List of Sections menu.

NOTE: If the user with an Author role who initiated the SoD does not have additional roles of Reviewer and/or Sender, then the Author should assign additional users with the relevant roles required to review and send the request or ask Supervisor for adding those users.

7.2.1.2. Choosing Executing Authority

Steps below are applicable to users with 'Author' and 'Reviewer' role.

The screenshot displays the JUDEX interface for a 'SODA test' case. On the left, a navigation menu lists various sections, with 'RECEIVING AGENCY' highlighted in green and marked with a circled '1'. The main content area shows the form structure with section 2, 'RECEIVING AGENCY', highlighted in green and marked with a circled '2'. The form fields for section 2 include: 2.1. Identity (if a country is not present in the below list, it might not accept this type of request. Please check the reason on this page), 2.2. Address (1.2.1. Street and number/PO box, 1.2.2. Phone, 1.2.3. Country, 1.2.4. Fax, 1.2.5. Email), 2.3. Title, and 2.4. Fax.

Figure 38: SoD Form A section 2. RECEIVING AGENCY

- ① Select **Section 2. RECEIVING AGENCY** in List of Sections.
- ② Select **Country** from the list.

The screenshot shows the 'SODA test' form in the JUDEX system. The form is divided into several sections: 'TRANSMITTING AGENCY', 'RECEIVING AGENCY', 'APPLICANT(S)', 'ADDRESS', 'METHOD OF SERVICE', 'DOCUMENT TO BE SERVED', 'LANGUAGE OF INFORMATION TO THE ADDRESSEE ABOUT THE RIGHT TO REFUSE THE DOCUMENT', 'REASONS FOR NOT TRANSMITTING THROUGH THE FORMALITARIUS IT SYSTEM', and 'SIGNATURE AND DATE'. The 'RECEIVING AGENCY' section is highlighted, and a green circle with the number '3' points to the 'Choose authority' button.

Figure 39: SoD Form A: Selecting an Executing Authority

③ Click **Choose Authority** button.

The screenshot shows the search results page for the receiving agency. The page has a search bar with the label 'postal code: *' and a 'Search' button. Below the search bar, it says 'SEARCH RESULTS' and 'No Search result'. A green circle with the number '4' highlights the search bar.

7.2.1.7. Authority that accepts/does not accept electronic communication

As Member States begin to use the Reference Implementation, more and more Authorities will be connected and able to communicate electronically. However, there will be authorities in the system that will not be able to send and receive requests/messages via the Reference Implementation. These authorities will be clearly distinguished from those that can.

These authorities should be contacted via the traditional route such as registered mail.

7.2.1.8. Mandatory fields

All mandatory fields must be completed before the SoD can be electronically submitted. These mandatory fields are checked by a validation check. This validation consists of set of syntactical and semantical validations of the data contained in the form. A check is performed to verify that all required (mandatory) fields of Form A or Form B have been filled. You can **trigger validation manually** at any time, while you edit a Form A or Form B.

To trigger validation:

Figure 57: SoD Form B validation

① View a case and select **Form A/ Form B** tab.

② Click **Validation check**.

Figure 58: SoD Form B mandatory fields

③ Validation will be performed and the toast notification with warning or success will be displayed. If there are validation errors, fields and sections containing errors will be highlighted red.

7.2.1.9. Pushing a case to the next step

Steps below are applicable to users with 'Author' role.

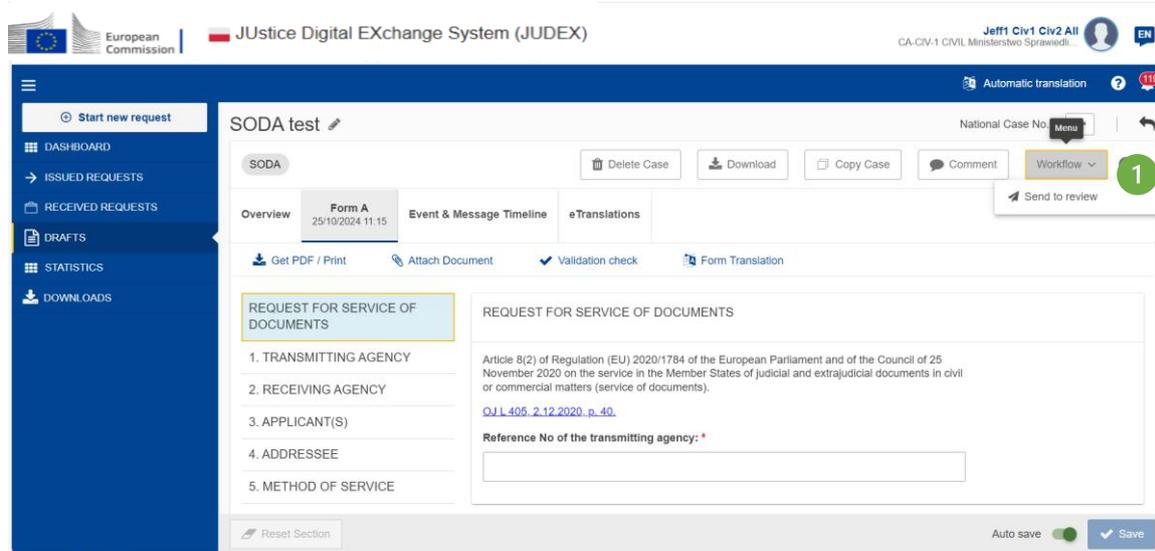

Figure 59: SoD Form A send to review

① In the edited case click **Workflow > Send to review**:

- A toast notification (success) will show up at the bottom.
- A new timestamp: 'Ready to review' will show up on the **Event & Message Timeline**.
- If a user has no other roles except Author, the workflow button will be disabled, as there are no other actions that can be performed.

7.2.1.10. Review

The next step in the workflow of a case is to review it and mark it as 'Positively Reviewed' or return it for amendment, or to reject completely if needed. Edition of the form is also possible.

Steps below are applicable to users with 'Reviewer' role.

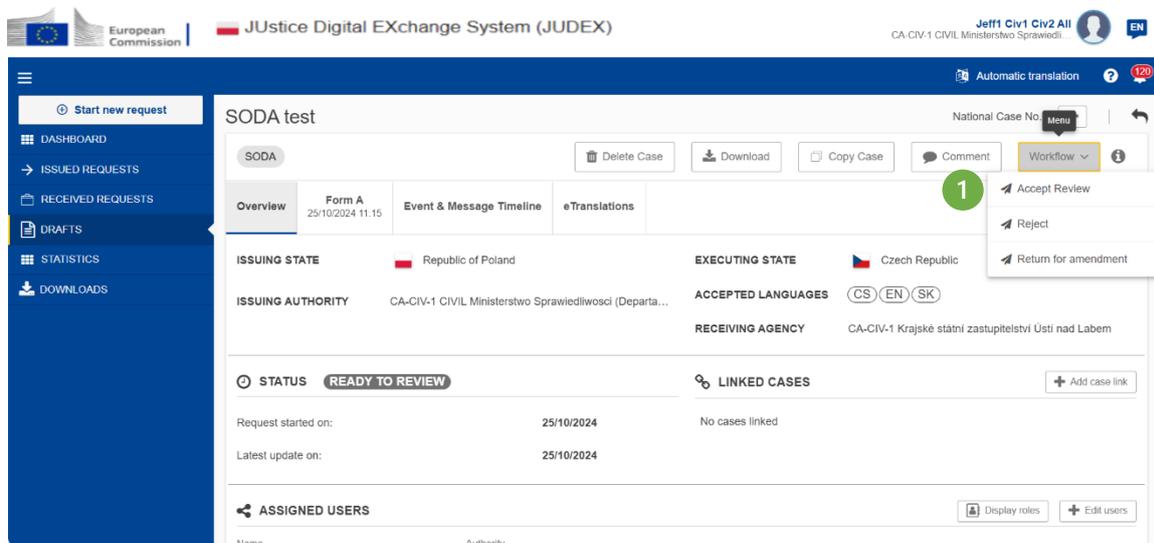

Figure 60: SoD Form A: Accepting review

① In a reviewed case click **Workflow > Accept review**:

- A new timestamp: 'Positively Reviewed' will show up on the **Event & Message Timeline**.
- If user has no other roles except Reviewer, the workflow button will be disabled, because there are no other actions for you to perform.

Alternatively:

- A. Click **Workflow > Return for amendment** and enter optional message - the case will go back to a draft editable by Author role. The Author will have to make amendments and click again **Workflow > Send to review**.
- B. Click **Workflow > Reject** – the case will be rejected, and no more actions of Workflow buttons can be performed by users.
- C. Reviewer is also able to edit a case.

7.2.1.11. Signature step

In the next step of the workflow, a user with the Sender role needs to attach the signed document to the Form. Please note that at this stage, a user the Sender role is not able to edit the case.

Steps below are applicable to users with 'Sender' role.

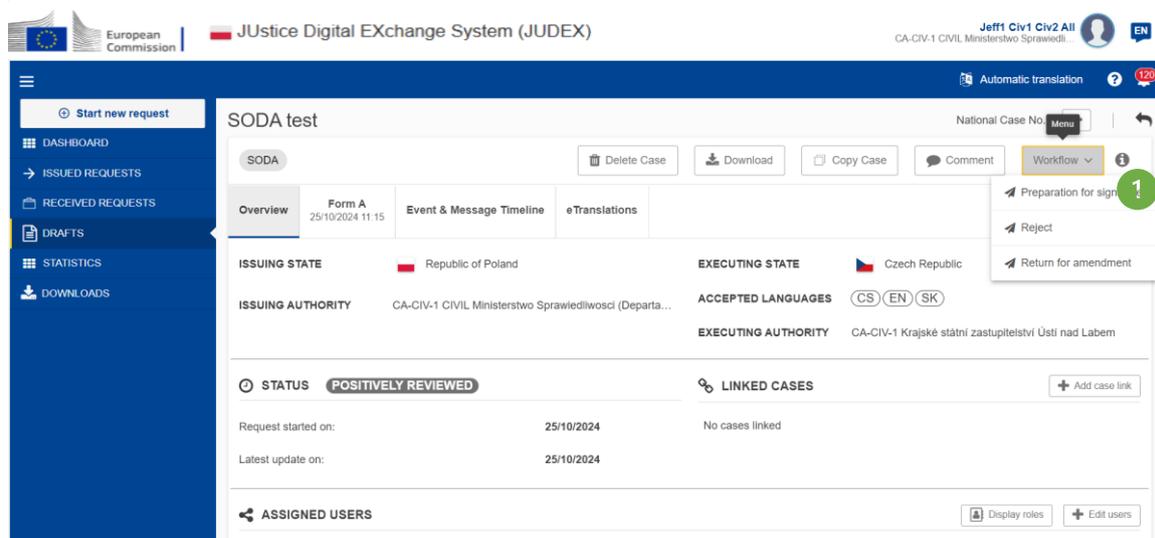

Figure 62: SoD Form A preparation for signature

① In a reviewed case click **Workflow > Preparation for signature**:

- A. Click **Workflow > Return for amendment** - the case will go back to Reviewer step in which the form can be edited by the user with Reviewer role. The Reviewer will have to make amendments and click again **Workflow > Complete**.
- B. Click **Workflow > Reject** – the case will be rejected, and no more actions of Workflow buttons can be performed by users.

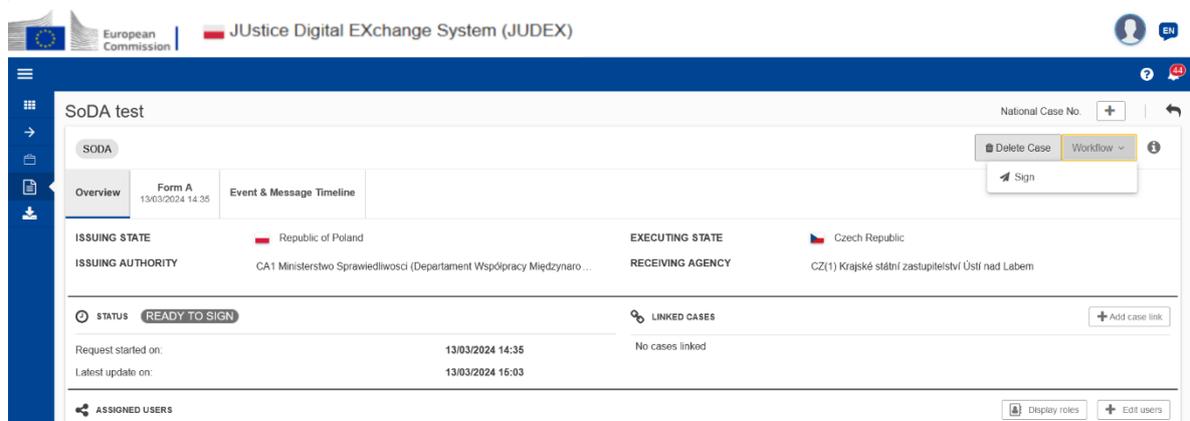

Figure 63: SoD Form A signing

② After the user clicks **Sign** in Workflow, ③ then the RI displays a pop-up window. At this step, the user has the option to choose whether they want to sign the document in PAdES format or select other type of signature (non-PAdES format).

④ If the signature is not positively verified or a wrong file has been selected for upload, an error message will appear. Check that you have logged in to the correct web browser.

Remarks: The status of a case will change to 'Signed'.

Sending Form A:

The last step of internal workflow is to send the case to the selected Executing Authority.

Steps below are applicable to users with 'Sender' role.

① Open a case.

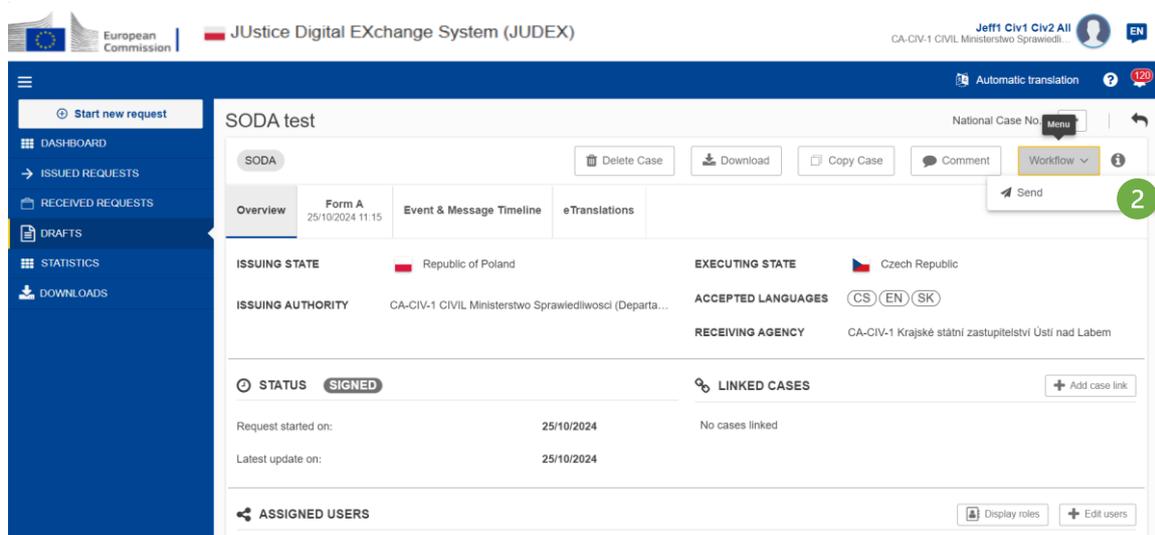

Figure 78: Sending SoD Form A

② Click **Workflow** > **Send**

③ System sends Form A and confirmation message appears.

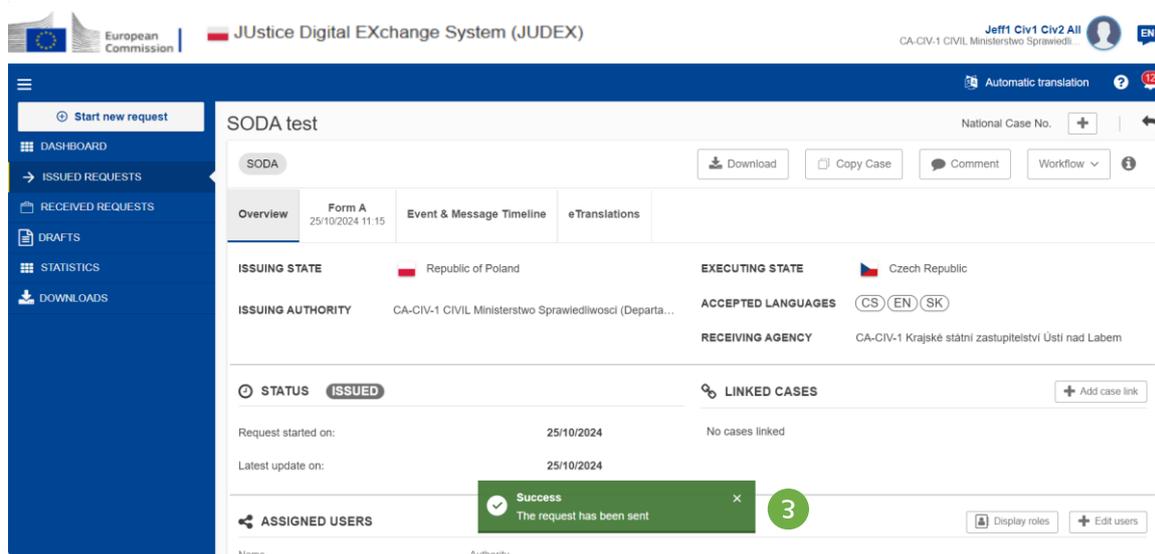

Figure 79: Sending SoD Form A: Confirmation message

The system will perform a validation check. If validation is performed successfully, the case will be sent, and the status will change to 'Issued'.

Exceptions: Sending error – in this situation a user with Sender role will be able to resend a request to Executing Authority using a **Resend** button on the Timeline.

After sending a SODA request to an Executing Authority, before receiving a reply, the Workflow menu of an Issued Request will allow to perform the following actions:

- Send other information
- Close a case / Reopen a case
- Withdrawal

After sending a SODB request to an Executing Authority, before receiving a reply, the Workflow menu of an Issued Request will allow to perform the following actions:

7.6. Deadlines execution

7.6.1. Deadlines execution SODA

This feature shows whether:

1. Manual SoD Form D (Acknowledgement of receipt) or SoD Form H (Acknowledgement of receipt by the appropriate receiving agency having territorial jurisdiction to the transmitting agency) has been sent within seven days of the SoD Form A receipt.
2. SoD Form K (Certificate of service or non-service of documents) has been sent within thirty days of the SoD Form A receipt.

7.6.2. Deadlines execution SODB

Currently, no deadlines for SODB instrument implemented.

7.6.3. Viewing deadline information in the Dashboard tab

The screenshot shows the 'My Dashboard' section of the JUDEX system. The left sidebar contains navigation options: 'Start new request', 'DASHBOARD', 'ISSUED REQUESTS', 'RECEIVED REQUESTS', 'DRAFTS', and 'DOWNLOADS'. The main area displays a table of 'Last edited cases' with columns for date, case ID, title, and status. A red dot is visible next to the case ID 'EO-PL-HU-2023-11-21-0046-1', indicating an overdue deadline. The right sidebar shows 'My tasks' with a list of linked requests and their completion status.

Figure 153: Viewing deadline information in the Dashboard tab

① Cases with an overdue deadline (one or many) are marked with a red dot. A deadline that expires on today's date is also leading to the case being displayed with a red dot.

7.6.4. Viewing deadline information in the Issuing Requests tab

Two tabs provide information:

- ① My Issued Requests: list of all issued open cases.
- ② Deadlines: list of all deadlines for a case, both upcoming and overdue.

The screenshot shows the 'Issued Requests' section of the JUDEX system. The left sidebar contains navigation options: 'Start new request', 'DASHBOARD', 'ISSUED REQUESTS', 'RECEIVED REQUESTS', 'DRAFTS', and 'DOWNLOADS'. The main area displays a table of 'My issued requests' with columns for 'Issued date', 'Ref', 'Title', 'National Case No.', 'To', 'Type', and 'Status'. A red dot is visible next to the case ID 'EO-PL-HU-2023-11-23-0011-1', indicating an overdue deadline. The right sidebar shows 'Deadlines' with a list of linked requests and their completion status.

- ① Due date: displays the deadline date.
 - ② Expected Response: indicates what response subject to a deadline is expected.
- Filtering possibilities are provided to narrow down the list of cases displayed.
- ③ Expected Response: 3 tick boxes allow the search on a specific deadline. Depending on the selection, a particular subset of cases is returned. It is possible to select several response types at the same time.
 - ④ Deadlines: by default, all deadlines are shown when entering this tab. Three tick boxes allow the search to be narrowed down to either only upcoming or only overdue ones.
 - ⑤ Click **Apply** to activate the filter.
 - ⑥ Click **Clear all filters** to revert to the default display mode (All).
 - ⑦ Clicking the arrows enables switching to next or previous pages.

7.6.5. Viewing deadline information in the Received Requests tab

Two tabs provide information:

1. My Received Requests: list of all received open cases.

8. TAKING OF EVIDENCE

8.1. Introduction

A Taking of Evidence (ToE) is a cross-border cooperation between the courts of the Member States in the taking of evidence in civil or commercial matters [AD.2].

The ToE may also be issued to the central body or the competent authority to request for the direct taking of evidence. The central body or the competent authority may assign a court of its Member State to take part in the direct taking of evidence in order to ensure that this Article is properly applied and that the conditions under which the direct taking of evidence is to be carried out are compliant with.

8.1.1. Overview

The process between creating a new case and sending it occurs in the **Internal Workflow**. During that process, the case is accessible only for authorized users from your Issuing Authority.

When all steps of Internal Workflow are completed, the case can be sent to a chosen Executing Authority.

The process of communication between Issuing Authority and Executing Authority occurs in the **External Workflow**.

8.1.2. High Level End to End Process

1. A competent authority creates the ToE.
2. The ToE request is reviewed by a user with Reviewer role.
3. The ToE is being sent to an appropriate Executing Authority in another Member State.
4. Communication between Issuing and Executing Authorities takes place.
5. The receipt of the ToE request is confirmed within seven days.
6. A decision is provided within ninety days of ToE receipt.
7. The case can be withdrawn by Issuing Authority, and/or forwarded by Executing Authority to another Competent Authority for full ToE execution.

- ⑤ Type a free form message (mandatory field) and attach documents (optional).

NOTE: TOEX case can be sent only by a user with Sender role. If the user with an Author role who initiated the ToE does not have additional Sender role, then the Author should assign a Sender or ask Supervisor for adding the Sender.

The TOEX does not have SIGNATURE AND DATE section. A user can attach a signed document via **Attach Document** button from the action bar (optional).

The TOEX cannot be forwarded or withdrawn.

8.2.1.7. Mandatory fields

All mandatory fields must be filled in before the ToE can be electronically submitted. These mandatory fields are checked by a validation check. This validation consists of set of syntactical and semantical validations of the data contained in the form. A check is performed to verify that all required (mandatory) fields of ToE Form A or Form L have been filled. You can **trigger validation manually** at any time, while you edit a Form A or Form L.

To trigger validation:

③ Validation will be performed and the toast notification (warning or success) will be displayed. If there are validation errors, fields and sections containing errors will be highlighted in red colour.

8.2.1.8. Pushing a case to the next step

Steps below are applicable to users with 'Author' and/or Supervisor role.

The screenshot shows the 'TOEL test' form in the JUDEX system. The form is titled 'TOEL test' and is in the 'Form L' stage, dated 25/10/2024 12:38. The form is divided into several sections: 1-2. INITIAL SECTION, 3. REQUESTING COURT, 4. CENTRAL BODY/COMPETENT AUTHORITY OF THE REQUESTED STATE, 5. IN THE CASE BROUGHT BY THE CLAIMANT/PETITIONER(S), 6. REPRESENTATIVES OF THE CLAIMANT/PETITIONER, 7. AGAINST THE DEFENDANT/RESPONDENT(S), and 8. REPRESENTATIVES OF. The 'SIGNATURE AND DATE' section is currently filled with 'Done at: as' and 'Date: 25/10/2024'. A green circle with the number 1 highlights the 'Send to review' button in the top right corner of the form. The interface also includes a sidebar with navigation options like 'Start new request', 'DASHBOARD', 'ISSUED REQUESTS', 'RECEIVED REQUESTS', 'DRAFTS', 'STATISTICS', and 'DOWNLOADS'. The top of the page shows the European Commission logo, the JUDEX system name, and user information for 'Jeff1 Civ1 Civ2 All'.

Figure 181: ToE Form L send to review

① In the edited case click **Workflow > Send to review:**

- A toast notification (success) will show up in the bottom.
- A new timestamp: 'Ready to review' will show up on the **Event & Message Timeline**.
- If you have no other roles except Author, the workflow button will be disabled, as there are no other actions that can be performed.

8.2.1.9. Review

The next step in the workflow of a case is to review it and mark it as 'Positively Reviewed' or return it for amendment, or to reject completely if needed. Edition of an ToE is also possible.

Steps below are applicable to users with 'Reviewer' role.

The screenshot shows the JUDEX interface for a case titled 'TOEL test'. The status is 'READY TO REVIEW'. A green circle with the number '1' highlights the 'Accept Review' option in the 'Workflow' dropdown menu. The interface includes a sidebar with navigation options like 'DASHBOARD', 'ISSUED REQUESTS', 'RECEIVED REQUESTS', 'DRAFTS', 'STATISTICS', and 'DOWNLOADS'. The main content area displays case details such as 'ISSUING STATE' (Czech Republic), 'EXECUTING STATE' (Republic of Poland), 'ISSUING AUTHORITY' (CA-CIV-1 Krajské státní zastupitelství Ústí nad Labem), and 'EXECUTING AUTHORITY' (CA-CIV-1 CIVIL Ministerstwo Sprawiedliwosci (Departament Ws...)).

Figure 182: ToE Form L: accepting review

① In a reviewed case click **Workflow > Accept review:**

- A new timestamp: 'Positively Reviewed' will show up on the **Event & Message Timeline**.
- If you have no other roles except Reviewer, the workflow button will be disabled, because there are no other actions for you to perform.

The screenshot shows the JUDEX interface for the same case 'TOEL test'. The status is now 'POSITIVELY REVIEWED', which is highlighted with a green box. The 'Workflow' dropdown menu is no longer visible, indicating it is disabled. The rest of the interface, including the sidebar and case details, remains the same as in Figure 182.

1. Click **Workflow > Return for amendment** and enter optional message - the case will go back to a draft editable by Author role. The Author will have to make amendments and click again **Workflow > Send to review**.
2. Click **Workflow > Reject** – the case will be rejected, and no more actions of Workflow buttons can be performed by users.
3. Reviewer is also able to edit a case.

8.2.1.10. Signature step

The next step in the workflow, after positively reviewing, is to add a signature to ToE Form A/ ToE Form L. Edition of the ToE request is also possible.

Steps below are applicable to users with Sender role.

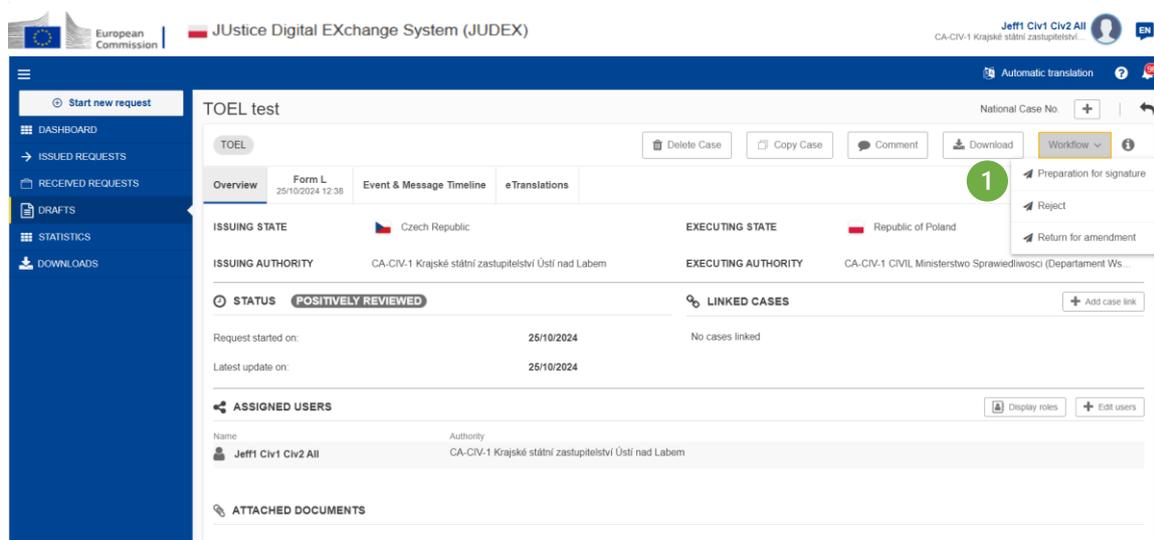

Figure 184: ToE Form L: preparation for signature

- ① In a reviewed case click **Workflow > Preparation for signature**:
 - C. Click **Workflow > Return for amendment** - the case will go back to a draft editable by Reviewer role. The Reviewer will have to make amendments and click again **Workflow > Accept Review**.
 - D. Click **Workflow > Reject** – the case will be rejected, and no more actions of Workflow buttons can be performed by users.
 - E. Sender is not able to edit case.

③ To download and upload ToE Form A/ ToE Form L request, follow the steps described in '[Sign chapter](#)'.

Sending Form L:

The last step of internal workflow is to send the case to the selected Executing Authority.

Steps below are applicable to users with 'Sender' role.

① Open a case.

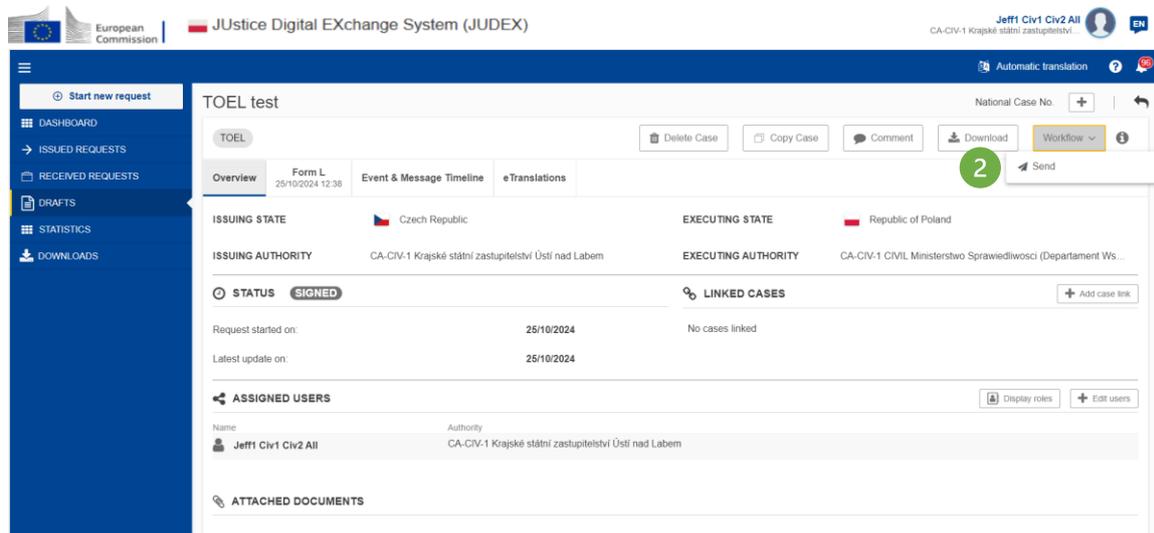

Figure 187: Sending ToE Form L

② Click **Workflow > Send**

③ System sends ToE Form A/ ToE Form L and confirmation message appears.

8.5. Execute ToE

8.5.1. Acknowledgement of Receipt TOEA

When Executing Authority receives TOEA request, it needs to send Acknowledgement of receipt of a request for the taking of evidence.

Sending manual confirmation of the receipt (Form B) to the Issuing State is divided to two (2) steps:

Step 1. Creating Form B:

- ① View the incoming request.

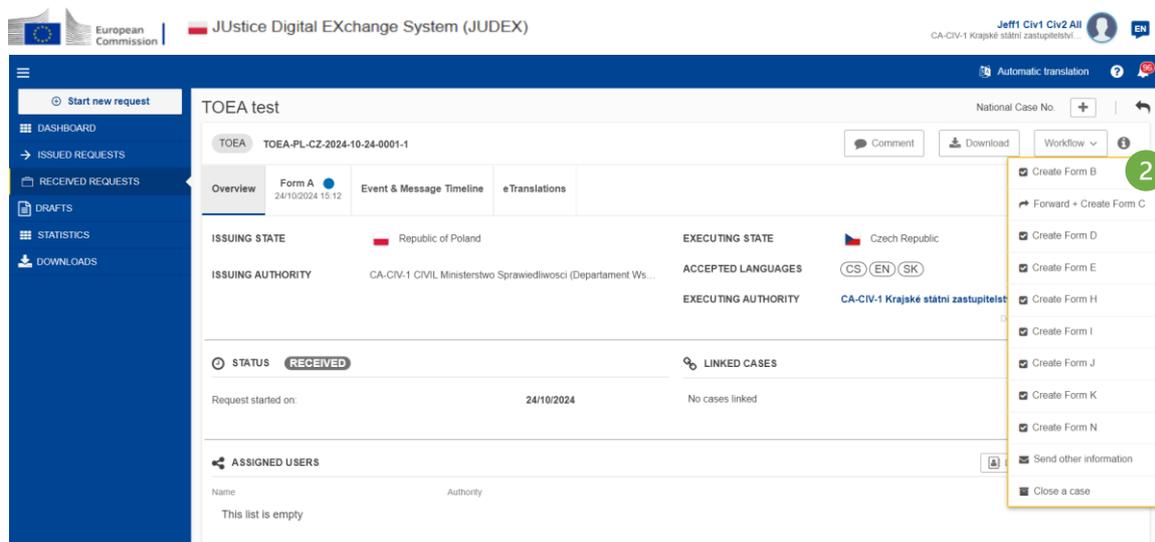

Figure 199: TOEA: Creating Form B: Acknowledgement of receipt

- ② Click **Workflow > Create Form B**.

The screenshot shows the TOEA Authority interface. The top navigation bar includes the European Commission logo, the title 'Justice Digital EXchange System (JUDEX)', and the user 'Jeff1 Civ1 Civ2 All'. The main content area displays the 'TOEA authority' page for a specific request (TOEA-PL-CZ-2024-10-23-00). The interface is divided into a left sidebar with navigation options (Start new request, Dashboard, Issued Requests, Received Requests, Drafts, Statistics, Downloads) and a main workspace. The workspace shows a tab for 'Form B' (dated 24/10/2024 14:22) which is currently in 'DRAFT' status. Below the tabs, there is an action bar with buttons for 'Send', 'Get PDF / Print', 'Attach Document', 'Form Translation', and 'Validation check'. The main form content is titled '1-3. INITIAL SECTION' and 'ACKNOWLEDGEMENT OF RECEIPT OF A REQUEST FOR THE TAKING OF EVIDENCE'. It includes a section for '4. REQUESTED COURT', '5. THE REQUEST WAS RECEIVED ON', and '6. THE REQUEST CANNOT BE DEALT WITH BECAUSE'. A 'SIGNATURE AND DATE' section is also present. A '1. Reference No of the requesting court:' field contains the text 'eee'. A '4' in a green circle highlights the 'Save' button at the bottom right.

8.5.6. Terminate a process upon withdrawal of the request

If you receive a Withdrawal request from the Issuing Authority, then you should abort all ongoing actions and send confirmation to the Issuing Authority. The ToE status will change to WITHDRAWN.

8.6. Deadlines execution

8.6.1. Deadlines execution TOEA

This feature shows whether:

1. ToE Form B (Acknowledgement of receipt of a request for the taking of evidence) has been sent within seven days of the ToE Form A receipt.
2. ToE Form K (Information on the execution of the request for the taking of evidence) has been sent within ninety days of the ToE Form A receipt.
3. ToE Form D Reply (Reply to request for additional information for the taking of evidence) has been sent within sixty days of ToE Form D receipt.
4. ToE Form E (Acknowledgement of receipt of deposit of advance) has been sent within 10 days of Form D Reply receipt.

8.6.2. Deadlines execution TOEL

This feature shows whether:

1. ToE Form M (Information from the central body/competent authority concerning direct taking of evidence) has been sent within thirty days of the ToE Form L receipt.

8.6.3. Viewing deadline information in the Dashboard tab

The screenshot shows the 'My Dashboard' section of the JUDEX system. It displays a table of 'Issued requests' with columns for date, reference number, title, and status. A red dot is visible next to the first row, indicating an overdue deadline. A circled '1' highlights this red dot. The table contains 10 rows of test cases, each with a 'test' title and a 'Status' column showing 'Issued'.

Figure 245: Viewing deadline information in the Dashboard tab

① Cases with an overdue deadline (one or many) are marked with a red dot. A deadline that expires on today's date is also leading to the case being displayed with a red dot.

8.6.4. Viewing deadline information in the Issuing Requests tab

Two tabs provide information:

1. My Issued Requests: list of all issued open cases.
2. Deadlines: list of all deadlines for a case, both upcoming and overdue.

The screenshot shows the 'Issued Requests' section of the JUDEX system. It features two tabs: 'My issued requests' (highlighted with a circled '1') and 'Deadlines' (highlighted with a circled '2'). The 'My issued requests' tab displays a table of issued requests with columns for issued date, reference number, title, national case number, to, type, and status. The table contains 10 rows of test cases, each with a 'test' title and a 'Status' column showing 'Issued'.

Figure 246: Viewing deadline information in the Issuing Requests tab

① My Issued Requests Tab: similarly to the dashboard, overdue cases, or cases for which a deadline is due today are marked with a red dot.

② Click **Deadlines**: a list of all overdue and upcoming deadlines is displayed by default. The overdue or those with a deadline due today are marked in red.

The screenshot shows the 'Issued Requests' interface in the JUDGEX system. The interface includes a sidebar with navigation options like 'Start new request', 'Dashboard', 'Issued Requests', 'Received Requests', 'Drafts', and 'Downloads'. The main area displays a table of requests with columns for 'Due date', 'Ref', 'Title', 'National Case No.', and 'Expected response'. Above the table, there are filter options for 'Expected response' (TOE Form D Reply, TOE Form B, TOE Form E, TOE Form K, TOE Form M) and 'Deadlines' (All, Overdue, Upcoming). There are also 'Apply' and 'Clear all filters' buttons. The table contains 11 rows of data, each with a 'Due date', 'Ref', 'Title', 'National Case No.', and 'Expected response' (e.g., TOE Form B, TOE Form M, TOE Form K). Numbered callouts 1-7 highlight specific elements: 1 points to the 'Due date' column, 2 to the 'Expected response' column, 3 to the 'Expected response' filter checkboxes, 4 to the 'Deadlines' filter radio buttons, 5 to the 'Apply' button, 6 to the 'Clear all filters' button, and 7 to the pagination arrows at the bottom right.

① Due date: displays the deadline date.

② Expected Response: indicates what response subject to a deadline is expected.

Filtering possibilities are provided to narrow down the list of cases displayed.

③ Expected Response: 5 tick boxes allow the search on a specific deadline. Depending on the selection, a particular subset of cases is returned. It is possible to select several response types at the same time.

④ Deadlines: by default, all deadlines are shown when entering this tab. Three tick boxes allow the search to be narrowed down to either only upcoming or only overdue ones.

⑤ Click **Apply** to activate the filter.

⑥ Click **Clear all filters** to revert to the default display mode (All)

⑦ Clicking the arrows enables switching to next or previous pages.

8.6.5. Viewing deadline information in the Received Requests tab

Two tabs provide information:

3. My Received Requests: list of all received open cases.
4. Deadlines: list of all deadlines, both upcoming and overdue

The same functionality is provided as for the Issued Cases (Overdue marking, filtering).

8.6.6. Viewing deadline information on case level via Overview tab

As soon as the case is issued, 2 relevant deadlines are displayed on the Overview Tab. This is applicable to both issued and received cases.

The main difference being here that on Issued cases, in case a forward occurred by the initial Executing Authority, deadlines are displayed next to each other for all authorities involved.

9. STATISTICS HANDLING

Statistics handling is a system module that allows users with Statistics Handler role to generate one or any number of statistical reports for any selected period based on monthly reports. This functionality enables creation of customized summaries according to the specific criteria based on the SoD and ToE Regulations. Users can flexibly choose the time range, allowing for more accurate and precise monitoring of results over the selected period. The date range will be limited to selection from May 2025 to the current date.

The ability to generate the statistics is available within a single RI instance. The reports will be created manually – where a user with the Statistics Handler role can select any report of their choice. The System will generate reports in CSV format.

Currently, we distinguish the following reports for individual legal instruments:

9.1. SOD

9.1.1. Transmitted

- Request for Service of Documents (Form A)
- Request to Determine the Address of The Person to be Served (Form B)
- SODX + Reasons for not Transmitting (SODX + Form A Section 9)
- Completion of Service (Form K - Section 1)
- Refusal of Document (Form K - Section 3)
- Reason for Non-Service of Document (Form K - Section 4)
- Consolidated Report for Transmitted SOD – this report will present the consolidated number of all sent messages for all forms within the SOD instrument.

9.1.2. Received

- Request for Service of Documents (Form A)
- Request to Determine the Address of The Person to be Served (Form B)
- SODX + Reasons for not Transmitting (SODX + Form A Section 9)
- Consolidated Report for Received SOD - this report will present the consolidated number of all received messages for all forms within the SOD instrument.

Version: 2.8	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-03-18
--------------	--	-----------------

9.1.3. Technical Error Messages

- This report will present the consolidated number of errors for messages/forms within: Form A, Form B, SODX

9.2. TOE

9.2.1. Transmitted

- Request for the Taking of Evidence (Form A)
- Request for Direct Taking of Evidence (Form L)
- TOEX + Reasons for not transmitting through the decentralised IT system (TOEX + Form A Section 13)
- Information on the execution of the request for the Taking of Evidence (Form K Section 5)
- Information from the Central Body/Competent Authority Concerning Direct Taking of Evidence (Form M - Section 5.1 and Section 5.2)
- Consolidated Report for Transmitted ToE - this report will present the consolidated number of all sent messages for all forms within the TOE instrument.
-

9.2.2. Received

- Request for the Taking of Evidence (Form A)
- Request for Direct Taking of Evidence (Form L)
- TOEX + Reasons for not transmitting through the decentralised IT system (TOEX + Form A Section 13)
- Consolidated Report for Received ToE - this report will present the consolidated number of all received messages for all forms within the TOE instrument.

9.2.3. Technical Error Messages

- This report will present the consolidated number of errors for messages/forms within: Form A, Form L, TOEX

9.3. Create Statistics Report

Steps below are only applicable to users with 'Statistics Handler' role.

The first screen after logging in will be the Statistics Dashboard, where the user can see all available reports.

- ① Select the report from the presented list.
- ② Select time frame.
- ③ Click **Generate**.

Figure 251: Selecting Report and Time Frame

Figure 252: Confirmation of the report generation

Next, the system will display a pop-up informing that the reports will be available in the **Downloads** section on the left-hand menu.

Please remember that if you want to generate new reports, there is also a 'Clear section' option available, which will clear the entire section so you can select the desired reports again.

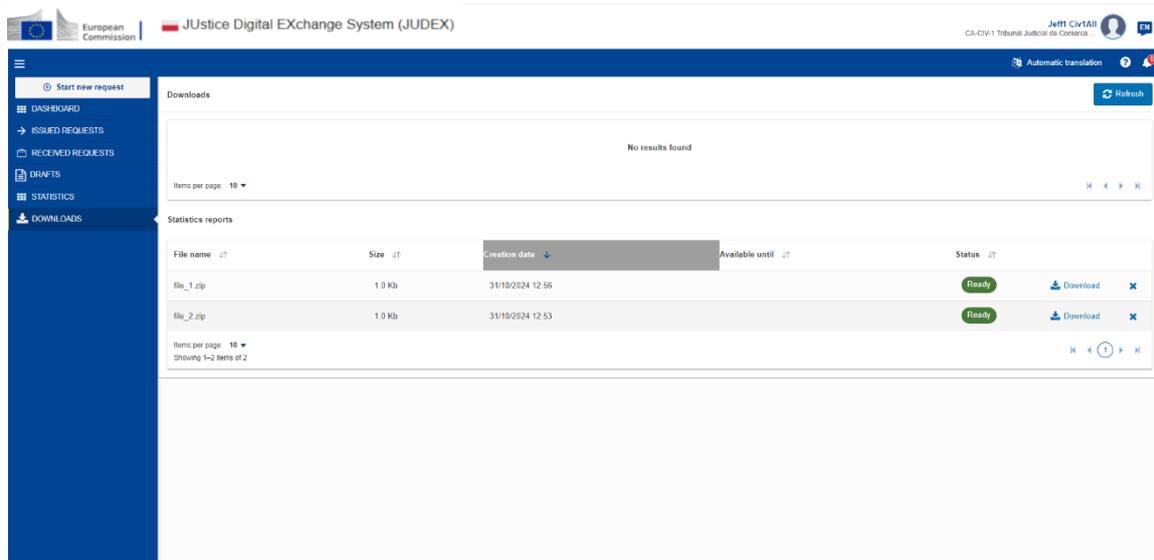

Figure 253: Downloads section

NOTE: We recommend scheduling report generation during nighttime hours due the potential system load, which may impact performance. However, the System Administrator has the flexibility to adjust the generation time as needed. For more information, please refer to the Architecture Guidelines and Software Design Document.

10. BASIC FUNCTIONALITIES

10.1. Communication between Authorities

10.1.1. View incoming message

To see a message received from an Executing Authority:

- ① Select **Issued or Received Requests**.
- ② Click a case you wish to view.

Depending on the type of a message:

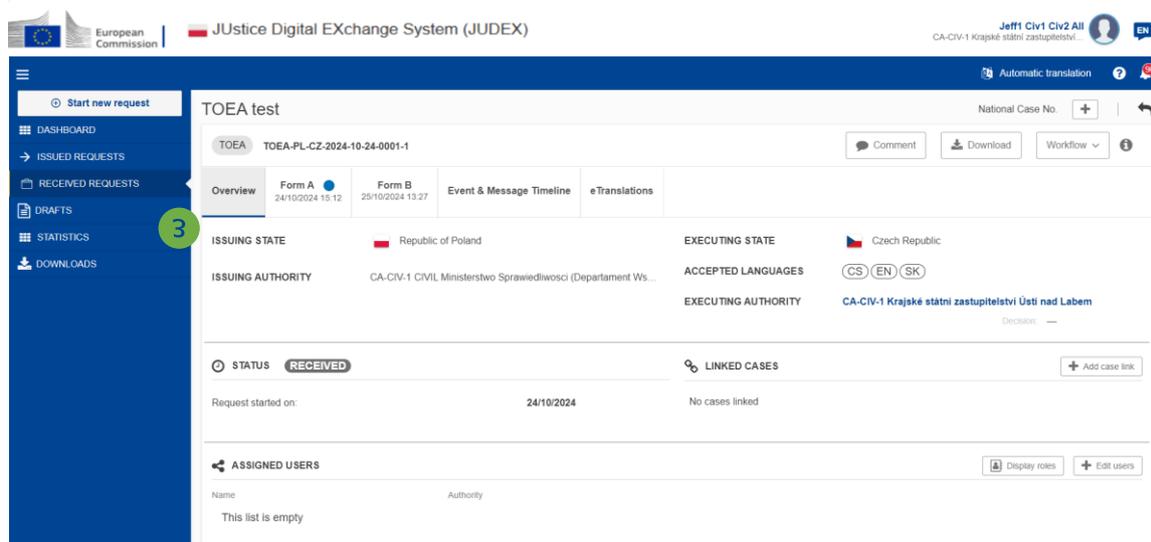

Figure 254: SoD A: Overview tab

- ③ If you receive a form, it will be visible in a separate tab. Click it to see the content.

The screenshot shows the JUDEX system interface. The header includes the European Commission logo and 'JUDEX' text. The main content area displays the 'Overview' tab for a SODA request. The 'Event & Message Timeline' tab is highlighted with a green circle '4'. The 'Assigned users' section is highlighted with a green circle '5', showing 'Test All Roles And Groups Assigned' for 'Auth1'. Below this, there are sections for 'Attached documents' for both 'Form D' and 'Form A', each containing a table of documents with columns for name, creation date, size, and antivirus status.

Figure 255: SoD A: Attachments on the Overview tab

- ④ Every type of sent/ received message is displayed on the **Event & Message Timeline**.
- ⑤ All attachments, messages exchanged in a process of communication, are displayed in the Overview tab and in corresponding tabs.

10.1.2. SODA: Send a request for additional information (Form E)

When Executing Authority receives SODA request, some additional information might be necessary. The Executing Authority sends Request for additional information or documents for the service of documents (Form E) to the Issuing State. This process is divided to two (2) steps:

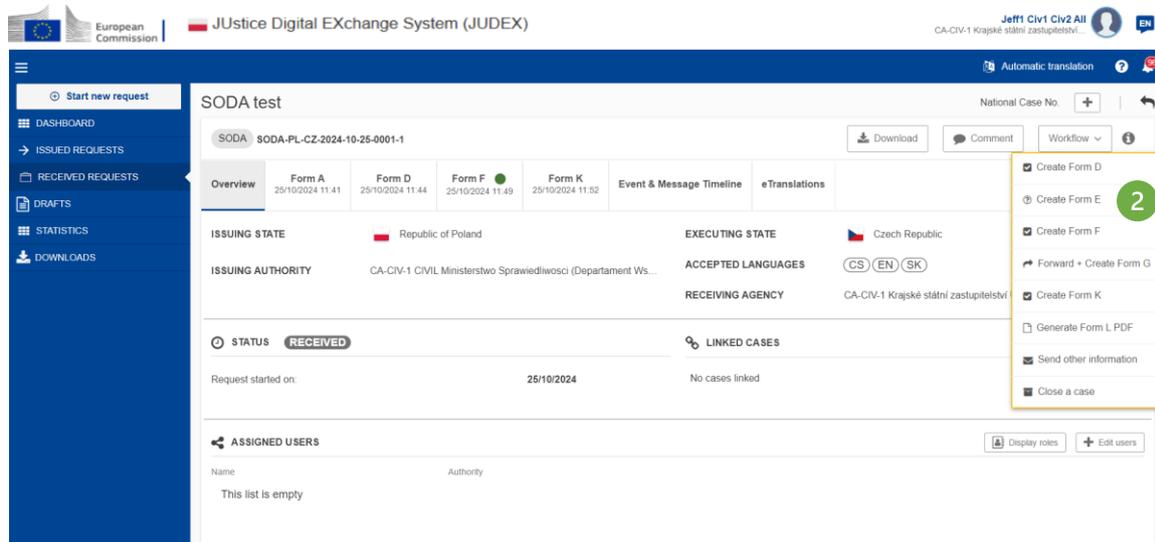

Step 1. Creating Form E:**① View the incoming request.**

Figure 256: SODA: Creating Form E: Request for additional information or documents for the service of documents

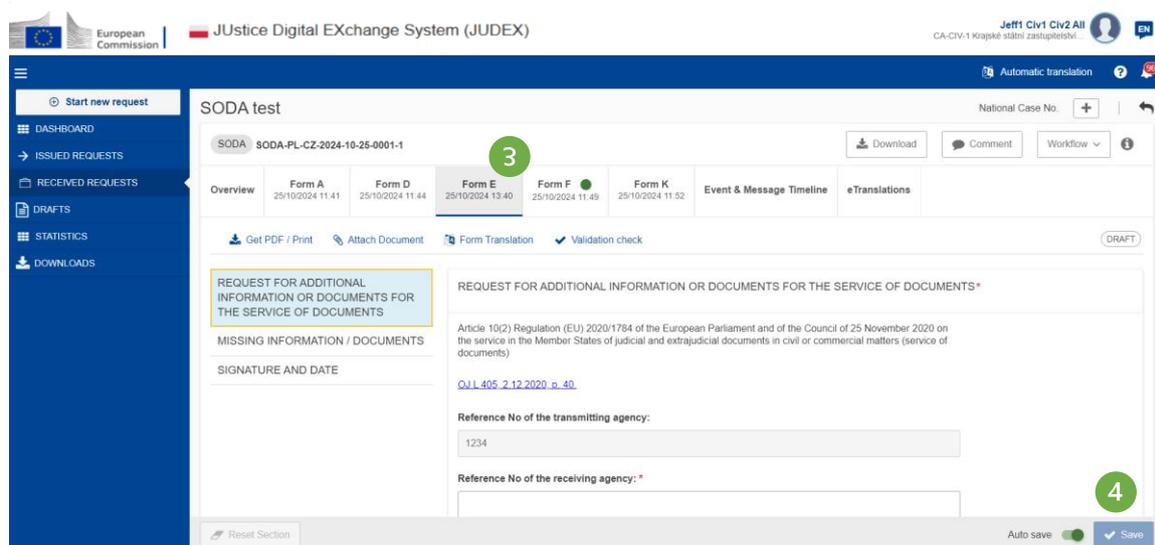

② Click Workflow > Create Form E.

Figure 257: SODA: Form E draft version displayed

③ Form E draft version will be created and displayed.

- ④ While filling data in Form E sections, remember to save your data.

Sending Form E:

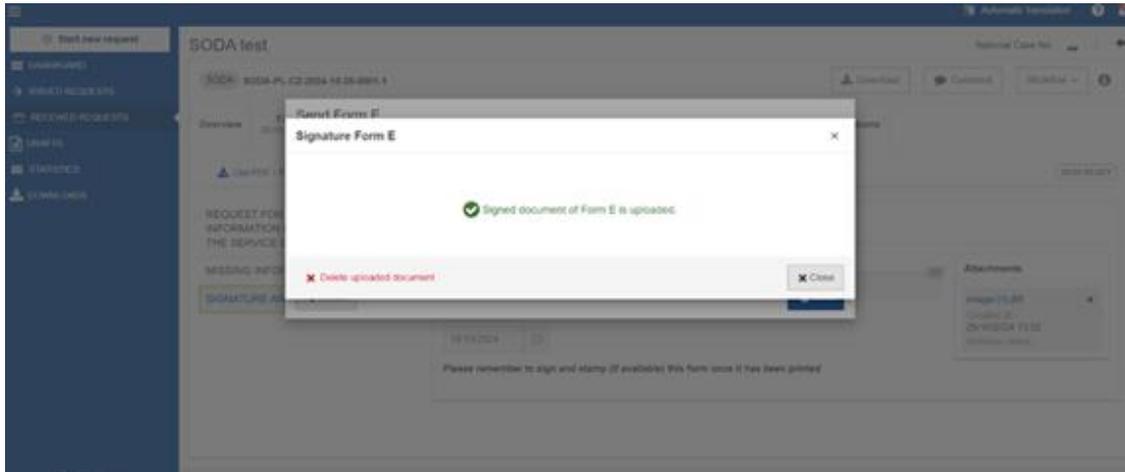

Figure 264 SODA: Signed document of Form E uploaded

- ⑦ Close the confirmation pop-up.
- ⑧ Send the form by using Send button from a Workflow dropdown list.

10.1.3. SODA: Reply to a request for additional information (Form E Reply)

You can reply to a request for additional information which you received from Executing Authority. Direct reply will make your response correlated with a request from Executing Authority.

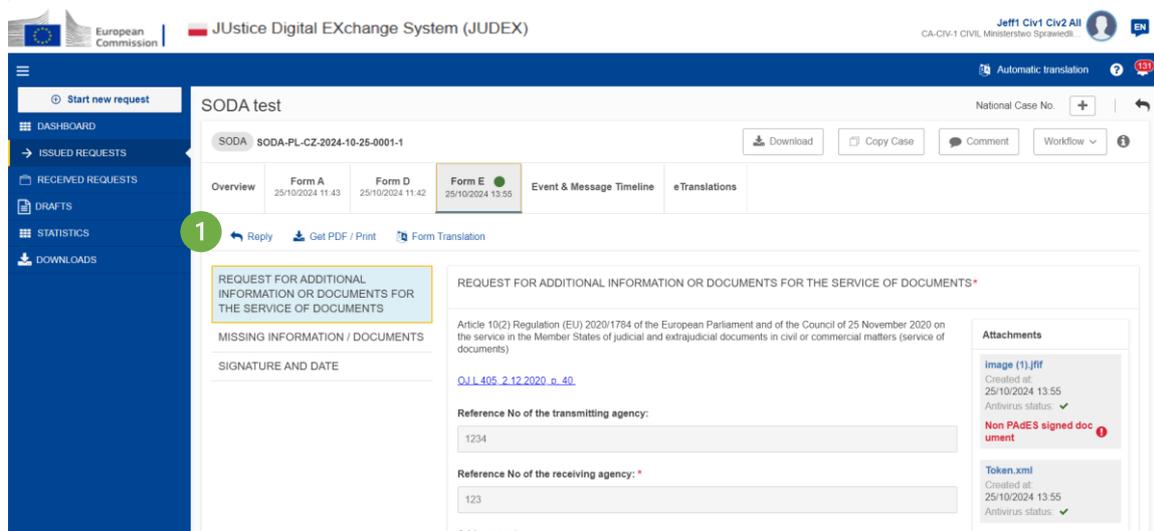

Figure 265: SODA: Reply to request for additional information: Clicking 'Reply' button

- ① View the **Request for additional information or documents for the service of documents** and click a **Reply** button.

Then, the RI displays a draft version of a Reply to a request for additional information (Form E Reply) and confirmation message.

10.4. Download the complete case

All users having access to the case (by assignment or by privilege) have the possibility to download the complete case to the local storage (PC or network shared disk).

The user can request to prepare a file for such download at any time while having access to the case. This request is triggering the process of completion of all case information, which can take some time, especially if the case has many large attachments. The case (e-forms, all messages, and attachments) will be compressed into a ZIP file. This ZIP file is accessible later, even if the user meanwhile has been revoked from handling the case or the case has been deleted.

Downloaded ZIP file contains comments, forms, messages.

Figure 354: 'Download' button

① To schedule a download, user must go into the case details screen and use the **Download** button.

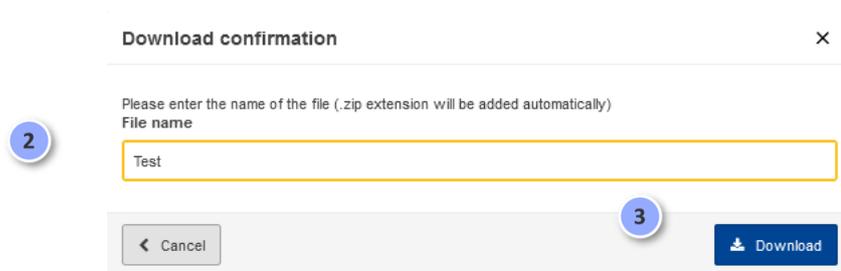

Figure 355: Downloading a ZIP file

② Then, the user must set the name of the ZIP file with case details.

③ Then, the user clicks the **Download** button again.

If everything went smoothly, user should receive this toast notification:

--------------	--	-----------------

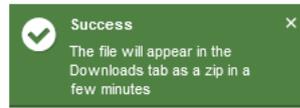

Figure 356: Download confirmation

Downloaded ZIP-file lands in DOWNLOADS section, on the left-hand menu.

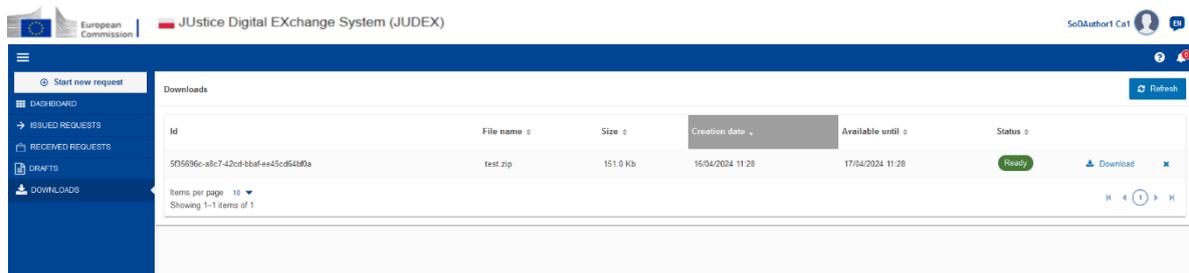

Figure 357: 'Downloads' section

The files that will be downloaded may have several statuses:

Ready - this means the file is ready to download,

Scheduled - this means that the file is waiting in a queue to be ready for download,

Error - means that the action to prepare the document for download has failed.

10.4.1. Deleting files from DOWNLOADS

10.5. Internal Comments

Internal comments can be added to a case along with attachments. These comments and attachments are only visible in the Issuing or Executing Authority timeline.

Comments are only visible internally and not transmitted anywhere.

Any user having access to the case can place a new comment or edit (add or delete an attachment, edit the text) and delete an existing comment.

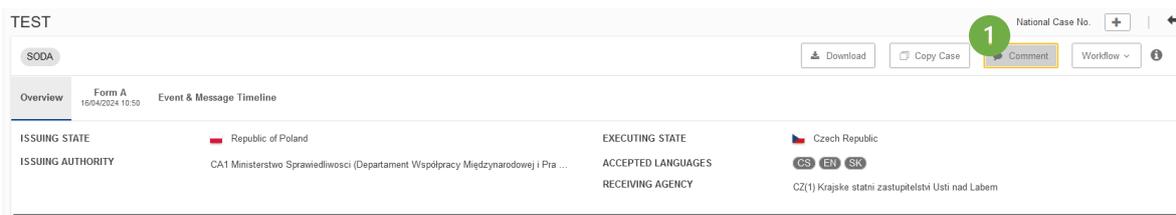

Figure 359: 'Comment' button

① To add a comment, a user needs to be inside an SoD or ToE and select a **Comment** button.

- ③ All comments are visible in the **Event & Message Timeline** of that single case. After deletion of the comment, it is no longer visible in the timeline.

10.6. Workflow menu

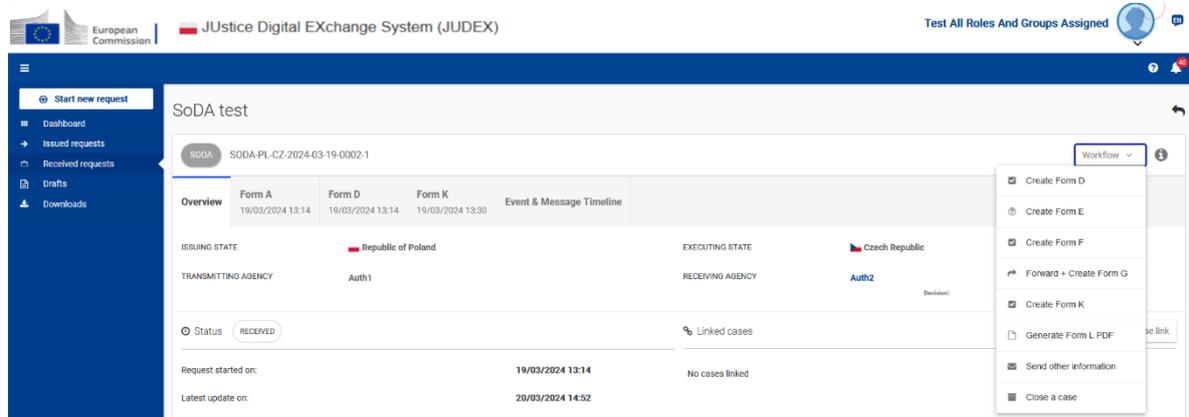

Figure 362: Workflow menu

The Workflow menu provides actions possible for drafts, issued and received cases. It serves both Issuing and Executing Authorities. Additionally, it allows sending the messages between these Authorities. Available options set-in drop-down menu depend on user role and workflow state of the Case.

--------------	--	-----------------

10.7. Close case

Closing a case takes effect only on closing side. The counterparty is not notified about the closure of the case. This action is not visible as a status on the timeline or as a global status of a case.

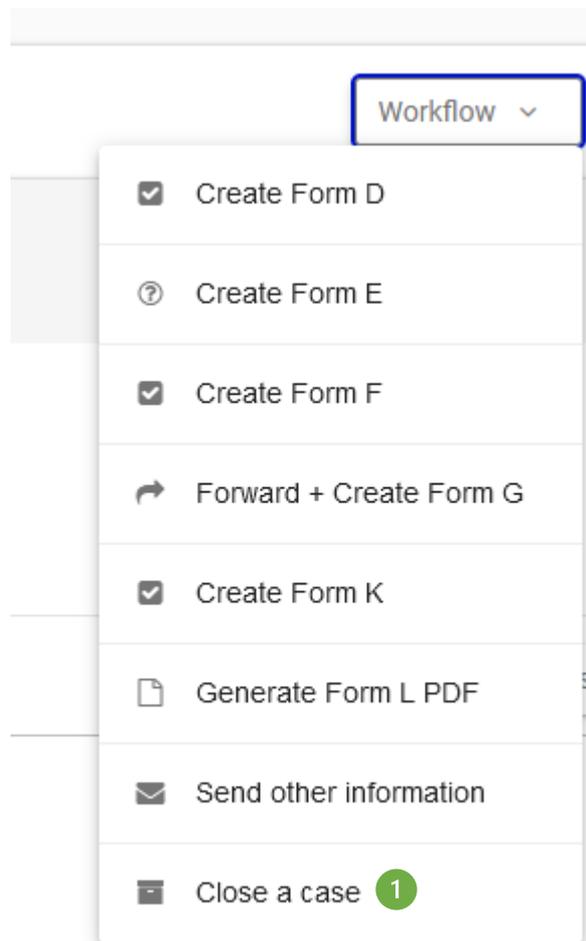

Figure 363: Closing a case: Workflow menu

- ① Click **Workflow** > **Close a case**.
- ② The status will be changed to **Closed**.

Remarks:

- Some actions of Workflow menu are no longer available. However, you can still use Workflow menu to:
 - Send other information,
 - Reopen the case.

10.7.1. Re-open closed case

Reopening a case takes effect only on your Issuing or Executing Authority's side. The corresponding Executing or Issuing Authority is not notified about the reopening of a case. This action is not visible as a status on the timeline or as a global status of a case.

To reopen a case:

Figure 364: Reopening a case: Workflow menu

- ① Click **Workflow > Reopen a case**.
- ② The status will be changed back to **Issued**.

10.8. Download PDF and Print

The button 'Get PDF/Print' is visible for all forms and predefined messages in form tabs of the SODA/ SODB/ TOEA/ TOEL.

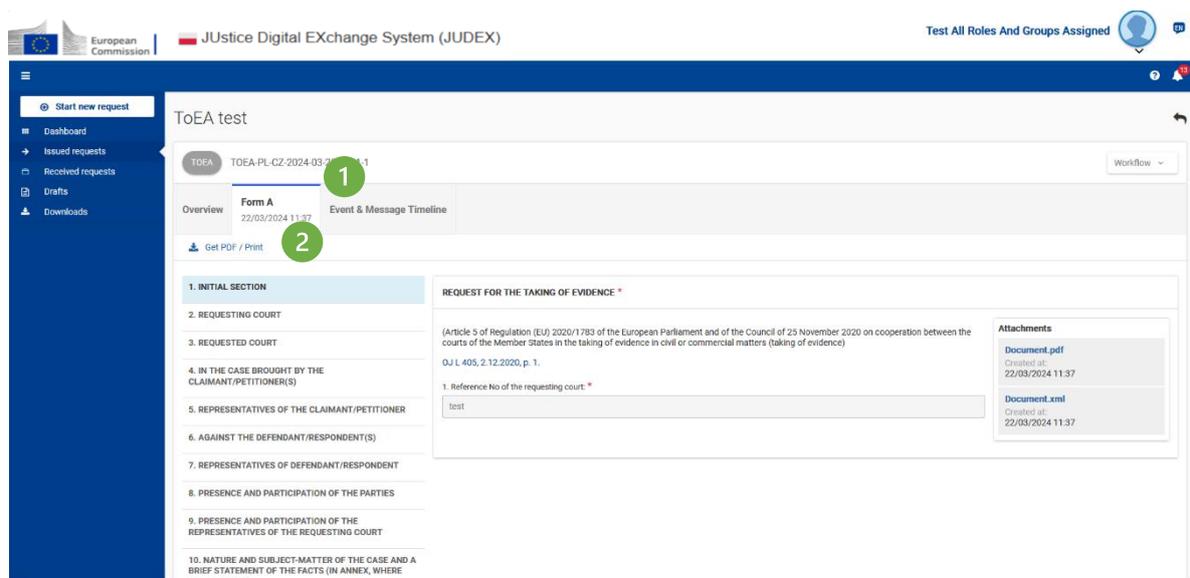

Figure 365: 'Get PDF / Print' button

- ① Select a form tab which you wish to download.

② Click **Get PDF / Print**, which will trigger downloading PDF file to your computer.

Wait until PDF download is completed. Depending on the connection and PDF size, delay in download may occur. Open the downloaded file in a web browser or PDF reader (Adobe Acrobat or other). Use Print feature of your browser or PDF reader to print a file.

10.9. Attaching files to a case

The button is visible for cases in **draft stage**.

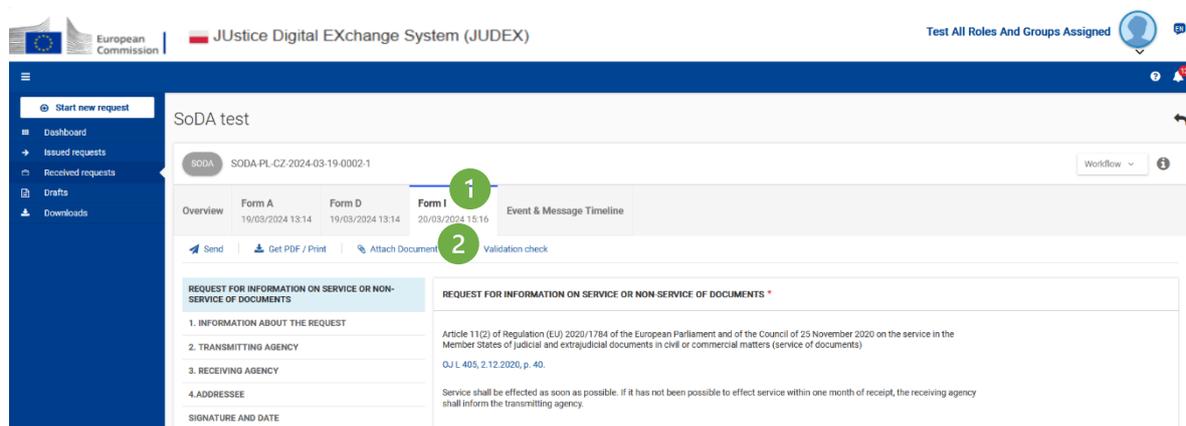

Figure 366: Attaching files to a case

- ① Create a form and the system displays a draft version.
- ② Click **Attach Document**.
- ③ A dialog box allowing you to browse the file system will be displayed.
- ④ Browse your system and select a file to attach OR select the file and Drag and Drop onto the Reference Implementation.
- ⑤ The file will be added to Attachments and saved in the draft.
 - Repeat steps 3-5 to add another file, if needed.
 - To remove an attachment (Be careful! You can remove also attachments added by someone else), click 'x' icon visible in the attachments box.
 - Recommended maximum size of attachments is 25MB however, please check the information for each country to ensure you are not exceeding the specified limit, as some countries may have a lower acceptable file size limit. If you are not aware of the recommended limits, please contact your local support team.

There are also conditional validation fields which are mandatory only if certain conditions are met/certain options selected. In these cases, these fields are marked by a red border and an error message.

10.11. Virus checking

A virus check is automatically performed by the Reference Implementation whenever a file is attached to and/or when a file is downloaded from a received communication.

Clam Anti-Virus software, developed by Cisco Systems, is provided. It is a cross-platform open-source antivirus software with a GNU (General Public License). Anti-virus checks are performed automatically.

--------------	--	-----------------

① Click an active **Save** button. The button is not active if the form has been saved previously/automatically and there are no new changes that could be saved.

② **There is also ‘Auto save’ option.** When the auto save is enabled, changing a selected section in a navigational menu of a form automatically saves the currently displayed section. If you accidentally change the section without clicking the **Save** button, the entered data will still be saved automatically.

When the Auto save is **disabled**, you must manually click the **Save** button to save new data in the draft.

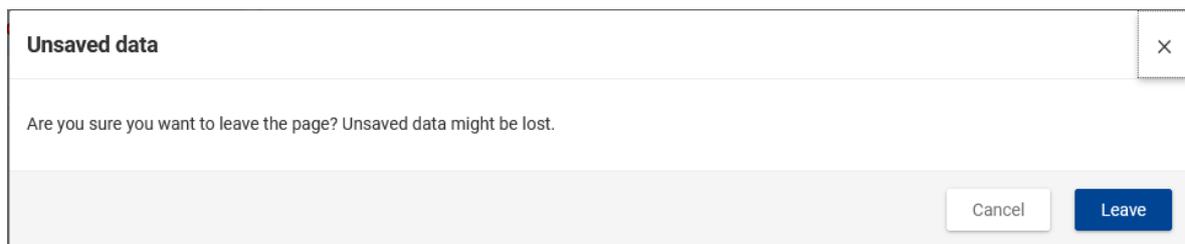

Figure 372: Unsaved data notification

NOTE: If the user does not save changes manually, the system will display a pop-up reminder after switching to another section or window.

10.13. Toast Notifications: errors, warnings, and success confirmation

Confirmation messages are displayed as a message at the bottom of the screen. These messages disappear after a few of seconds.

Toast notification (success - green) confirms the requested action was completed successfully.

Example:

Toast notification (warning - orange) warns that some actions or information required is still missing so that the system cannot complete the desired action properly.

10.14. Change subject of a draft case

The button is visible only for users with the role Author, for cases in DRAFT status only, before the DRAFT is set as COMPLETED. If one completes the case, the only way to change the Subject of the Draft is to return the case for amendment to Author.

Figure 376: Changing the title of the case

- ① Click the icon to change the title of a case.

Figure 377: Saving case title

② Edit the title and click **Save**.

10.15. Delete a case

Only cases in a **draft stage** can be deleted without any additional actions. This functionality is available for the SoD and the ToE requests.

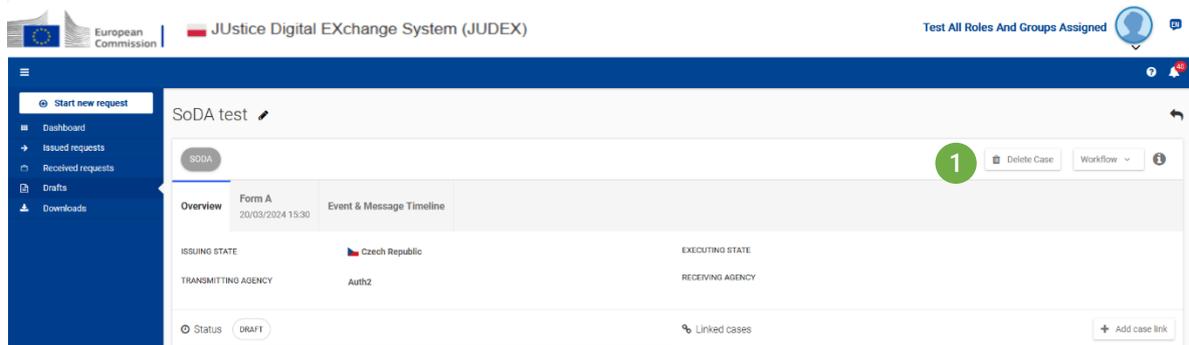

Figure 378: 'Delete Case' button

① Only users assigned to a case (that must be still in Draft status) and having the edit right, can delete the case from the RI.

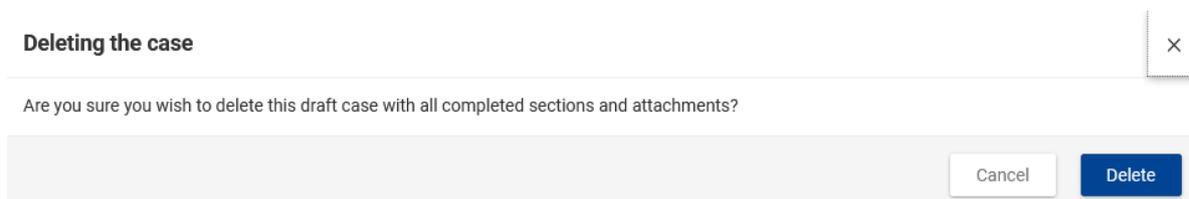

Figure 379: Deleting a case

After clicking the **Delete case** button, the Reference Implementation will display a pop-up requesting confirmation of the operation.

NOTE: Please note that there is also the option to delete cases at any status, but to do so, the user must precede this operation with the “Close a case” or “Withdrawal” function from the “Workflow” button.

User with the Supervisor and Assigner roles do not have to be assigned to the cases to be able to perform this operation. According to their privileges, they see all cases in their authority. Please keep in mind that user with Assigner role can use “Delete” functionality only for received cases. After deleting the case, all communication between the parties involved is closed, and it will no longer be possible to send or receive any messages or forms within the case. It is recommended to send service message and wait until the service message reaches the addressee. Otherwise, when a user deletes the case before it reaches the receiving authority, the user cannot check if the service message was delivered. Moreover, it might cause errors (technical confirmation to the message that no longer exists).

10.16. Cases and tabs content

10.16.1.1. Overview tab

The screenshot shows the 'Overview' tab for a case titled 'SoDA test' (ID: SODA-PL-CZ-2024-03-19-0002-1). The interface includes several sections:

- 1**: Case title and ID.
- 2**: Issuing State (Republic of Poland).
- 3**: Transmitting Agency (Auth1).
- 4**: Executing State (Czech Republic).
- 5**: Receiving Agency (Auth2).
- 6**: Status (ISSUED).
- 7**: Linked cases (SODA-PL-CZ-2024-03-05-0001-1).
- 8**: Attached documents (Token.xml and Token.pdf).

Additional details include the request start date (19/03/2024 13:10), latest update, assigned users (Test All Roles And Groups Assigned), and document metadata (created at, size, and antivirus status).

10.16.1.2. Change of authority

① When one creates a new case in a draft state (before setting the draft as completed), the executing state and executing authority can be changed. After changing the case status from draft to completed, the user can also make a return for amendment, which will enable re-editing executing state and authority.

The screenshot shows the SODA interface for a case. At the top, there are buttons for 'Delete Case', 'Download', 'Copy Case', 'Comment', and 'Workflow'. Below these are tabs for 'Overview', 'Form A', and 'Event & Message Timeline'. The main content area is divided into two columns. The left column shows 'ISSUING STATE' as 'Republic of Poland' and 'ISSUING AUTHORITY' as 'CA1 Ministerstwo Sprawiedliwosci (Departament Wspólpracy Międzynarodowej i Pra...'. The right column shows 'EXECUTING STATE' as 'Czech Republic', 'ACCEPTED LANGUAGES' as 'CS EN SK', and 'EXECUTING AUTHORITY' as 'CZ(1) Krajske státní zastupitelství Jižní nad Labem'. A 'Choose authority' button is located at the bottom right of the right column, highlighted with a green circle containing the number 1.

10.16.1.3. Selecting correct Executing Authority

It is presumed that practitioners will know to which Executing Authority their request should be directed. Users might use e-Justice Portal (or consult EuroJust) to find out the appropriate executing authority for SoD or ToE by performing complex search. The user at issuing side needs to provide appropriate data to the search tool according to the Drools Rules (Business Rules) which are defined per each Member State in CDB (eg. municipality, postal code). The search tool will display a set of authorities which have appropriate country code and a pair of instrument and competence assigned.

Links to e-Justice Portal:

[European e-Justice Portal - Serving documents \(recast\) \(europa.eu\)](#)

[European e-Justice Portal - Taking evidence \(recast\) \(europa.eu\)](#)

The Member States have an obligation to keep authorities' data in CDB correct, complete and up to date, with appropriate instruments and competences assigned.

If executing state has dispatching authorities (Spain, Italy), only those dispatching authorities are entitled to receive new cross-border requests and forward them to other authorities with competence RI – Forwarded Authority (RFA) assigned, according to their territorial jurisdiction.

10.16.1.4. Suggestion mechanism during searching for executing authority

The suggestion mechanism is a feature that enhances user searches for the correct authority by providing authority name autocompletion in a search tool. When a user starts typing in the search field, the search tool displays available options.

- ① User selects receiving Member State and clicks ‘Choose authority’ button.

10.16.1.5. Creating a link to another case

Creating links to other cases is possible for drafts, issued and received cases. Such references may provide relevant information of complementary value to the case. Links are displayed on the Overview tab in the ‘Linked cases’ section.

See the example below:

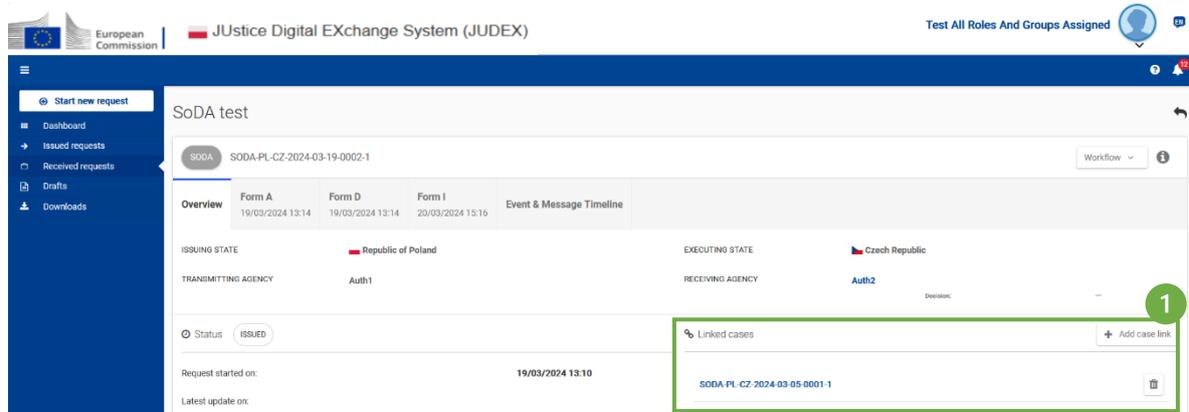

Figure 389: Creating a link to another case

Follow the steps below to add a link to another case:

① Click **Add case link**.

The screenshot shows a dialog box titled 'Add case link'. It has a search input field with a magnifying glass icon and the placeholder text 'Type reference number or the subject'. A red circle with the number '2' is placed over the input field. Below the input field is a blue 'Save' button with a checkmark icon. There is also a close button (X) in the top right corner of the dialog.

Figure 390: Add case link: Typing reference number or the subject

② Type a **reference number** or **the subject**. The system will search for Global Case IDs through cases and if a result is found, the reference number of the matching case will be displayed for selection in the dropdown. Otherwise, a new manually typed case reference can be added to the system.

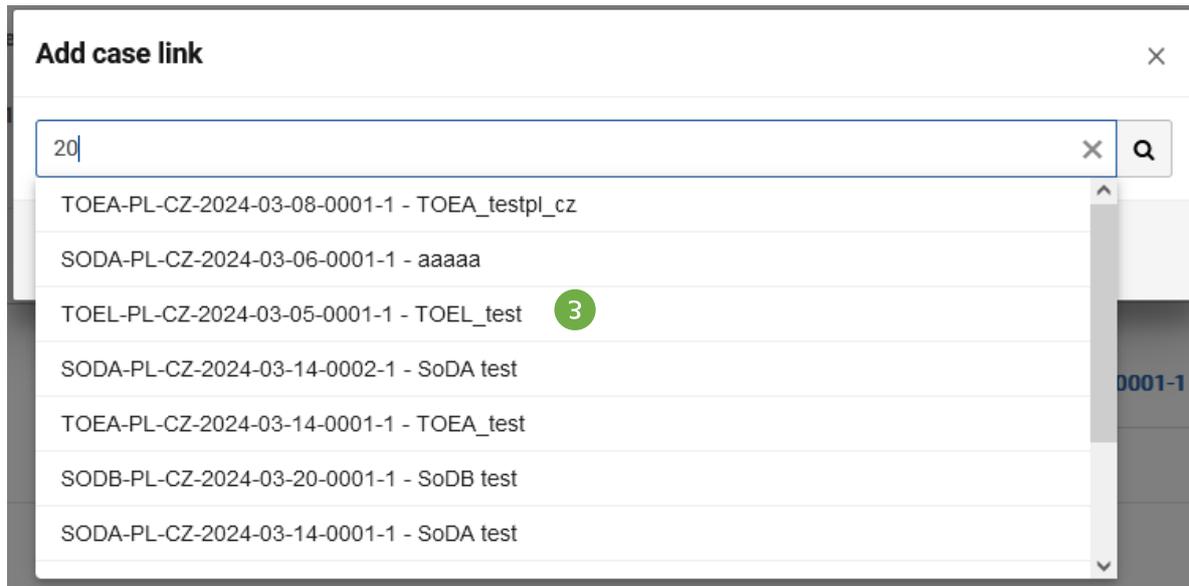

Figure 391: Add case link: Selecting the reference number

- ③ Select the **reference number** from the list.

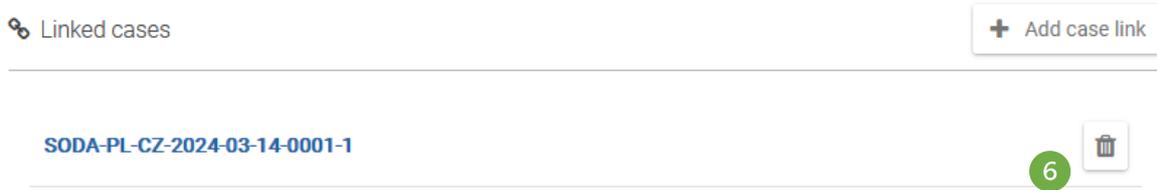

Figure 394: Removing linked references

⑥ You can remove linked references by clicking the Trash bin icon.

NOTE:

1. Links/references to other cases are not transmitted to other Competent Authority.
2. Linking is possible to existing cases in the Reference Implementation or to any external ‘paper’ cases. The reference is a free form allowing practitioners to enter their custom references.
3. Where a reference that already exists in the RI is added, then the linked case can be easily retrieved and opened.
4. Adding these references may provide links to other SoDs/ToEs and/or other external sources.

10.16.2. Event & Message Timeline

This tab is visible for all cases, including drafts, issued and received cases.

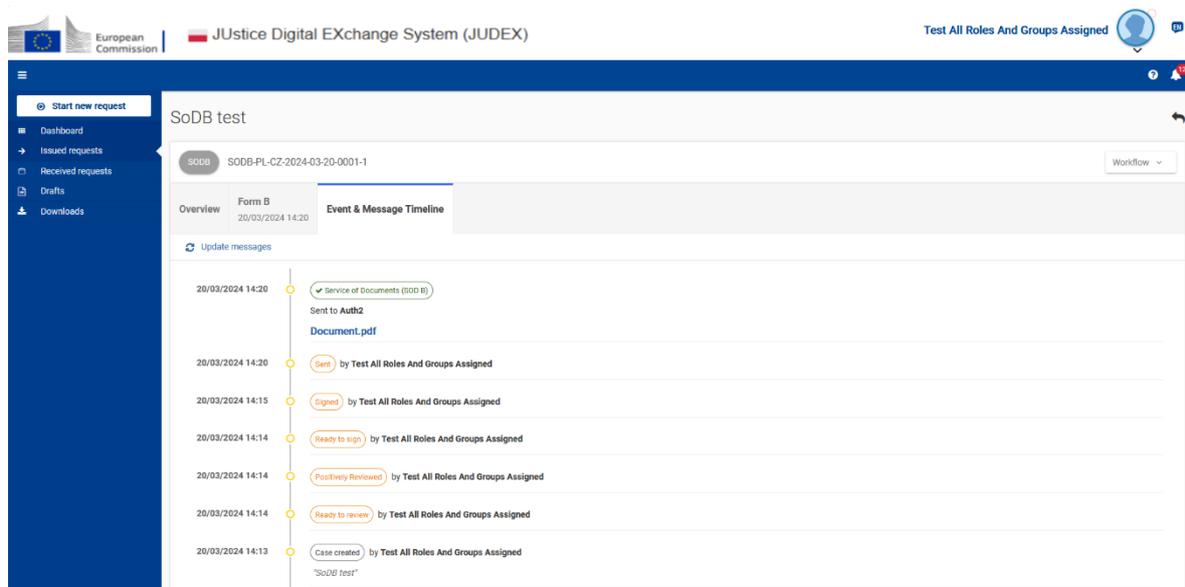

Figure 395: Event & Message Timeline: Overview

It contains a timeline with:

Version: 2.8	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-03-18
--------------	--	-----------------

- Status Changes.
- Messages exchanged between Authorities within a case. For issuing side, all communication with all Executing Authorities is visible. For executing side, messages sent and comments added by other Executing Authorities will not be visible.
- Local user's comments (not transmitted).
- Confirmation that a sent message has successfully reached its destination (green tick).

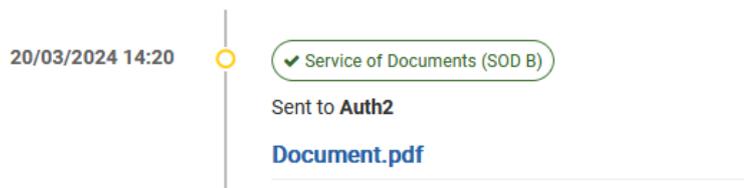

Figure 396: Event and Message Timeline: Confirmation that a sent message has successfully reached its destination

- If a message fails to arrive at destination, after automatic three re-sends, a red coloured message will be visible with an option to re-send by user with role Sender.

10.17. Assigning Users to a case

The ‘Supervisor’ is a privileged role that can see all cases within their authority. The ‘Assigner’ is a role dedicated to assigning users to the cases. Users with those roles assign users to a case, so that they can handle the internal workflow. The ‘Supervisor’ assigns appropriate users to a case, so that access to a case is limited to designated person(s) and confidentiality is always maintained.

Practitioners with Supervisor role can assign users to all cases in their authority (to Issued, Received and to Drafts) at any time. Practitioners with Assigner role can assign users to cases at the executing side.

Also, the ‘Author’ can manage users, but only to cases that this user creates.

Users with an Author, Reviewer, Sender, Guest/Viewer roles in their authority will only see cases to which they have been assigned and do not have access to any other cases managed by their authority.

Additionally, only from the perspective of the executing side, there is also the role of a Dispatcher, who can forward cases to other authorities (this role should be assigned to users in the Member States where dispatching authorities operate; it is not needed in the Member States that do not have such authorities).

Version: 2.8	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-03-18
--------------	--	-----------------

Please keep in mind that users are not assigned to perform one specific role. Users are assigned to a case. If an assigned user has multiple roles, the user can perform several actions.

NOTE: Please note that in the sub-forms that have internal workflows (listed below), if the user has multiple roles (Supervisor, Author, Reviewer, Sender), this user will be able to participate in the workflow only when is assigned to this case. Otherwise, the workflow will not be visible for this user and no action could be performed.

③ To collapse the expanded view, click **Hide roles** button.

10.17.2. Assign users to a draft/issued/received case

Steps below are applicable to users with 'Author', 'Assigner' and 'Supervisor' roles and are universal for all types of cases.

10.17.4. Assigns users from a different authority to a case (sharing the case)

Only a user with the Supervisor role can perform this action. A Supervisor may want to share a case with other Supervisors or Assigner from other authorities (within the same RI Instance) in their home country.

④ After the user is successfully removed from the case, they also disappear from the list in the ASSIGNED USERS section.

10.18.2. Revoking access to the case from the Overview tab

The screenshot shows the 'Overview' tab for case TOEA-PL-CZ-2024-04-11-0002-1. The 'Assigned users' section lists two users: 'Test All Roles And Groups Assigned' (Authority: Auth1) and 'tom_all1 Site1' (Authority: Ministerstwo Sprawiedliwosci (Departament Wspolpracy Miedzynarodowej) | Praw Czlowieka). A green circle with the number '1' highlights the 'Revoke access' button next to the second user.

Figure 416: Revoking access to the case from the Overview tab

- 1 A user with role Supervisor or Assigner selects 'Revoke access' button.

The screenshot shows a notification dialog box titled 'Revoke access'. The message reads: 'This will remove user access to the case'. At the bottom right, there are two buttons: 'Cancel' and 'Yes'. A green circle with the number '2' highlights the 'Yes' button.

Figure 417: Revoking access to the case from the Overview tab: Notification

② Then the Reference Implementation displays a pop-up window to confirm this operation.

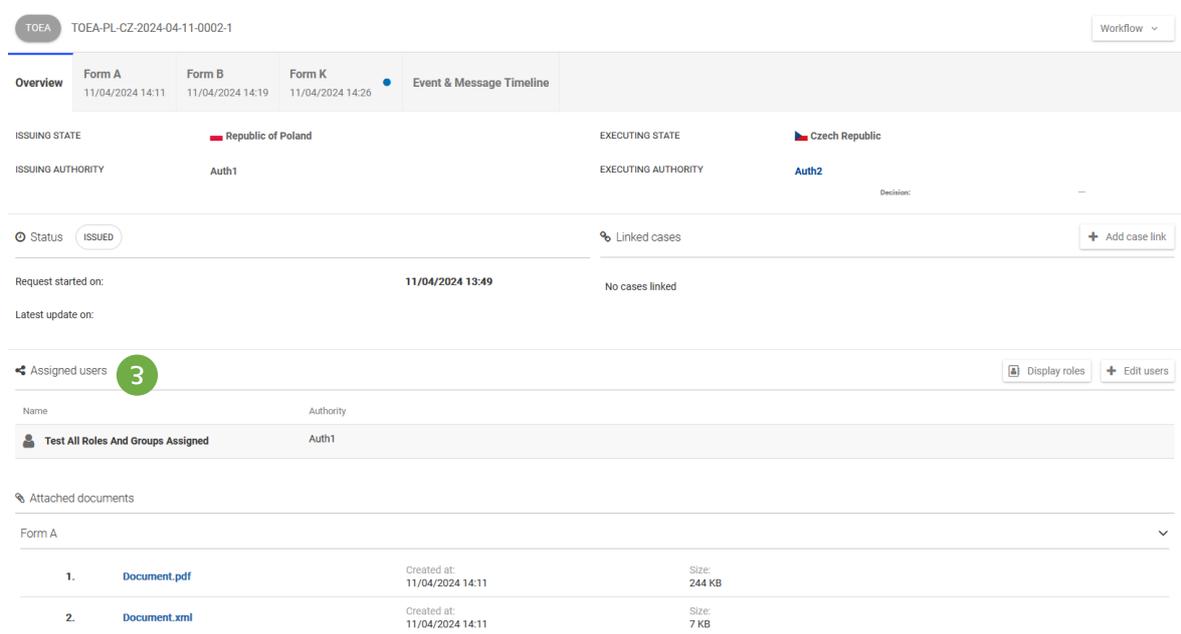

Figure 418: Revoking access to the case from the Overview tab: Assigned users section

③ After the user is successfully removed from the case, they also disappear from the list in the ASSIGNED USERS section.

NOTE: If a case has been shared with another authority, only the user with the role of Supervisor from original/initially authority can remove the Supervisor and other users from the authority to which the case has been shared.

10.19. Access restrictions for Assigner

There is a possibility to manually remove access for Assigners from a request. Although this feature is enabled when a request is being received by an executing authority, it should be used after users have been assigned to the case (or after a case forward).

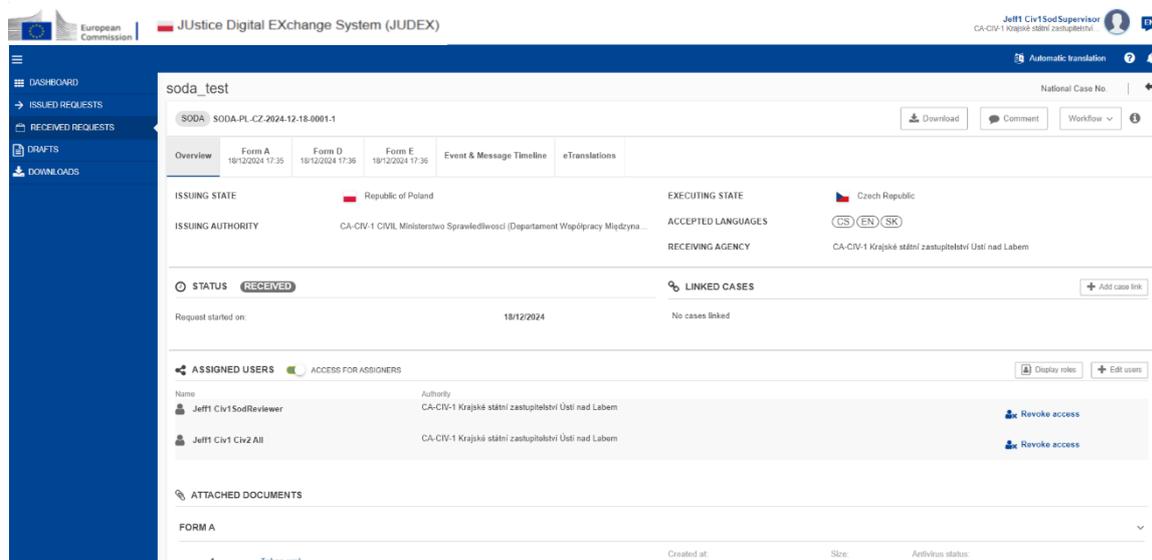

Figure 419: Toggle view near Assigned Users label

Toggle is visible for users with Supervisor, Assigner or Dispatcher role. When a user clicks on a toggle, the RI displays a warning pop-up: ‘Are you sure you want to remove all Assigner's access to the case? Only Supervisors will continue to have access to this case. No changes on this case are possible afterwards.’

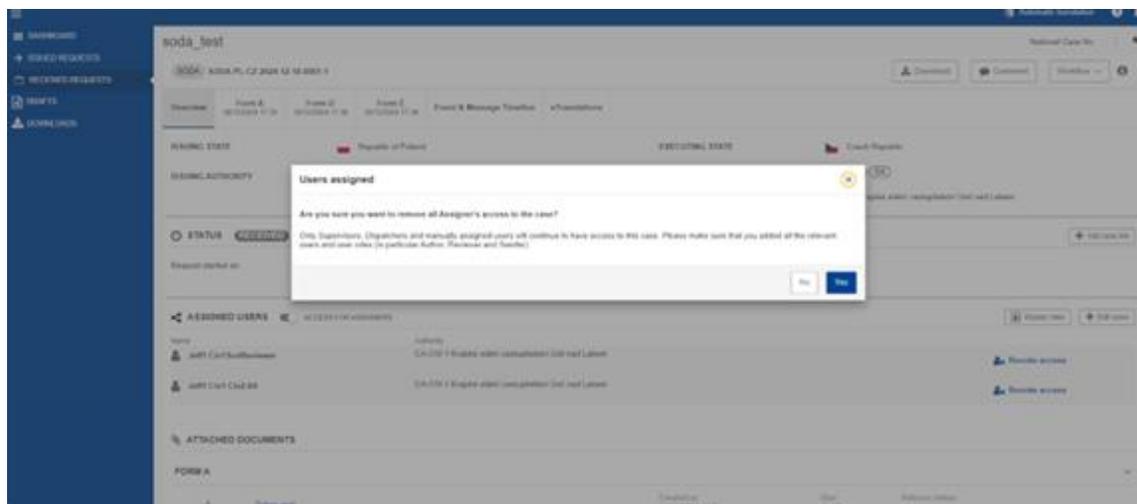

Figure 420: Toggle popup window

When user confirms, access of all Assigners to that case will be restricted (this is applicable only to Assigners who had access to the case by default, not to the users that have been manually assigned to the case).

10.20. Translate

10.21. Language used for communication

Each Member State should send out requests in one of the accepted languages defined by the receiving State. If the request is written in a language that is not used by the receiving State, it can be accompanied by an additional translation into one of the languages accepted in that Member State.

The acceptable languages have been provided by the Member States to the European Commission and are made available on the e-Justice Portal. This information is also visible in the RI, in the Overview Tab, next to the Executing Authority section. Additionally, the user will receive a pop-up with a hint before sending out the case.

You will also receive a pop-up with hint before sending out the case.

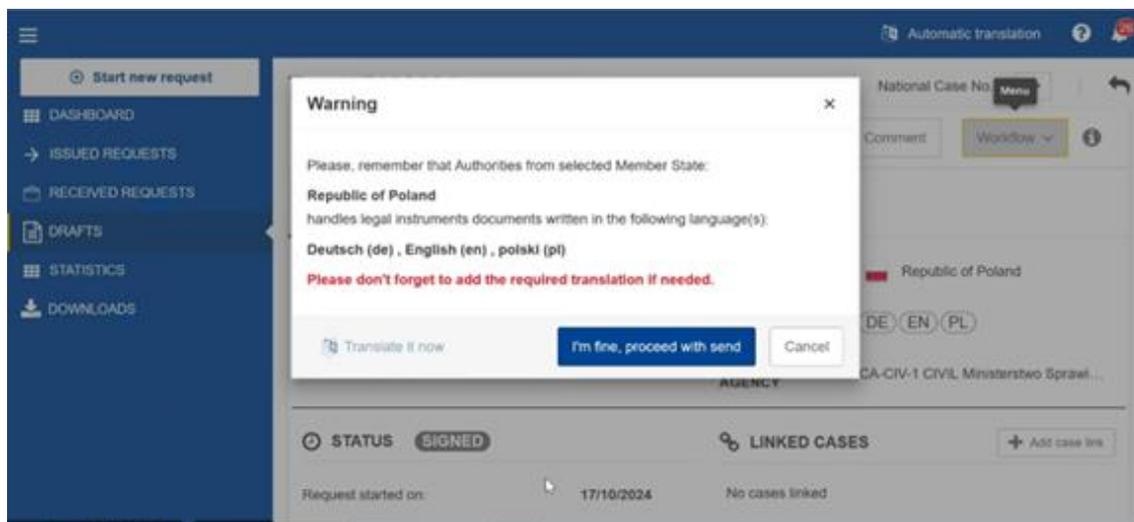

Figure 421: Warning message: language of the document

The RI does not validate whether the request was created in an accepted language of the receiving State. The RI does not prevent sending the request in a language that is not accepted by the receiving State.

The accepted languages for each Member State can be checked on the e-Justice Portal at the following links:

[Serving documents \(recast\) | European e-Justice Portal](#)

[Taking evidence \(recast\) | European e-Justice Portal](#)

The recommended way to provide the signed request in an accepted language is to:

Version: 2.8	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-03-18
--------------	--	-----------------

1. Complete the form in a language that the user knows (to minimize the risk of mistakes).
2. When a form is completed, switch language of the RI to the language that is accepted by the receiving state. This should be done before the 'sign' stage.
3. At the Sender stage, download the PDF according to the workflow, sign it and upload. The form will be generated in the current language of the RI (which is a language accepted by the receiving state if the language of the RI has been chosen correctly).

Please remember that when the user changes language of the RI, only the labels are changed to the target language. Inputs are not translated, therefore when filling out the form, the fields should be filled in the language of the receiving state.

To obtain automatically translated inputs, an authority can use the machine translation (eTranslation service) to translate the request into the language accepted by the receiving State. Therefore, when filling out the form, the fields should be filled in the language of the receiving State. When machine translation is used, the eTranslation service provides labels that comply with the Regulations, and inputs that are translated automatically. The PDF document provided by eTranslation can be attached as a supplementary attachment.

10.21.1. Human translation

SoD and ToE legal translation files carried out by sworn translator(s) should be attached as a file attachment to the SoD and ToE or attachment to the message sent later to the Executing Authority at any time, but the machine translation tool (eTranslation) may be a very useful feature in urgent cases.

10.21.2. eTranslation

eTranslation is a machine translation service provided by the European Commission that is used for internal processes. For more information on the eTranslation tool, see [here](#).

The tool has been implemented in the RI on the sending and receiving side where it is possible to translate text fields of messages and documents created within the system. The tool might be useful for a general understanding of the case, but it is important to highlight that it does not affect in any way the need to provide official translations where relevant.

Each user assigned to a request can request for machine translation of a form.

NOTE: Not all the form's fields are being translated by eTranslation service. The following types of fields are not being translated:

- Fields that contain proper names (name of the authority, name of the natural or legal person etc.)

Version: 2.8	REFERENCE IMPLEMENTATION Service of Documents & Taking of Evidence User Manual	Date 2026-03-18
--------------	--	-----------------

- Fields that contain business data (address, telephone number, fax, e-mail, postal code etc.)
- Fields that contain numbers (identity number, number of enclosures etc.)
- Non-text fields (date pickers, radio buttons, checkboxes, titles, headings etc.)

The eTranslation service translates only inputs provided by the user. The labels presented in the system in each language are compliant with the Regulations.

10.21.2.1. Requesting for eTranslation

① User opens the form that should be translated and clicks on **Form Translation** button.

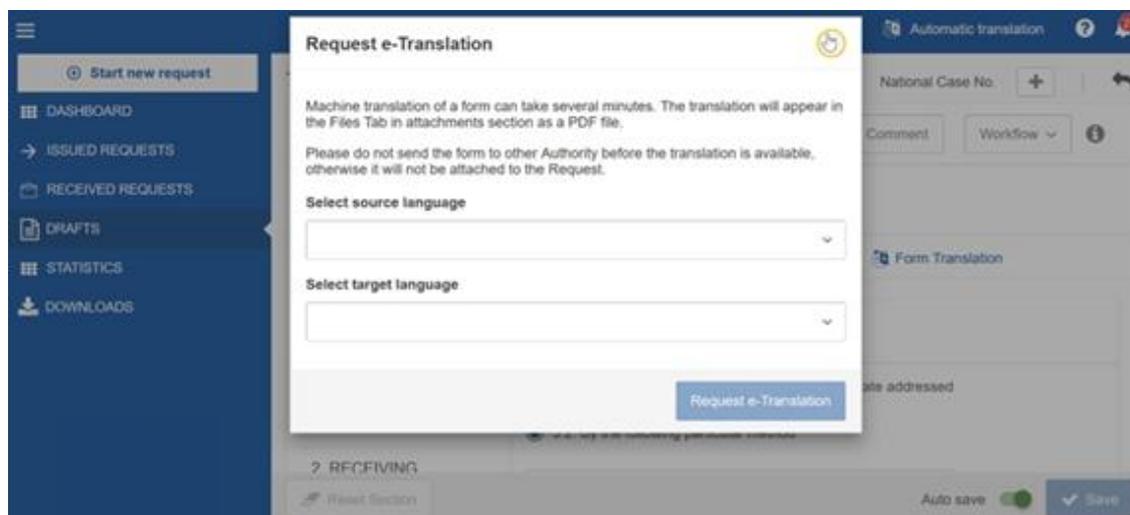

Figure 422: Requesting for eTranslation

② RI displays **Request eTranslation** pop-up.

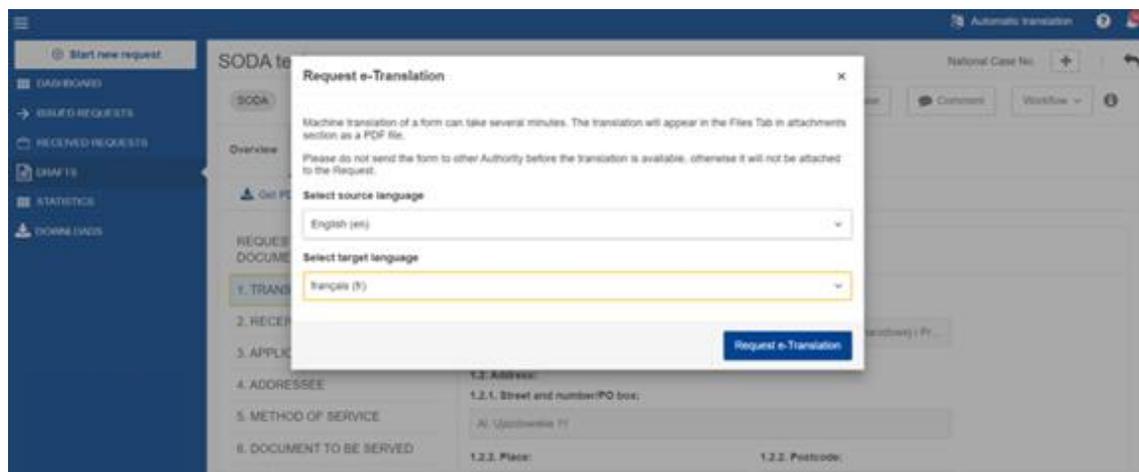

Figure 423: Requesting for eTranslation: selected languages

③ User selects **source language** and **target language** and clicks on **Request eTranslation**.

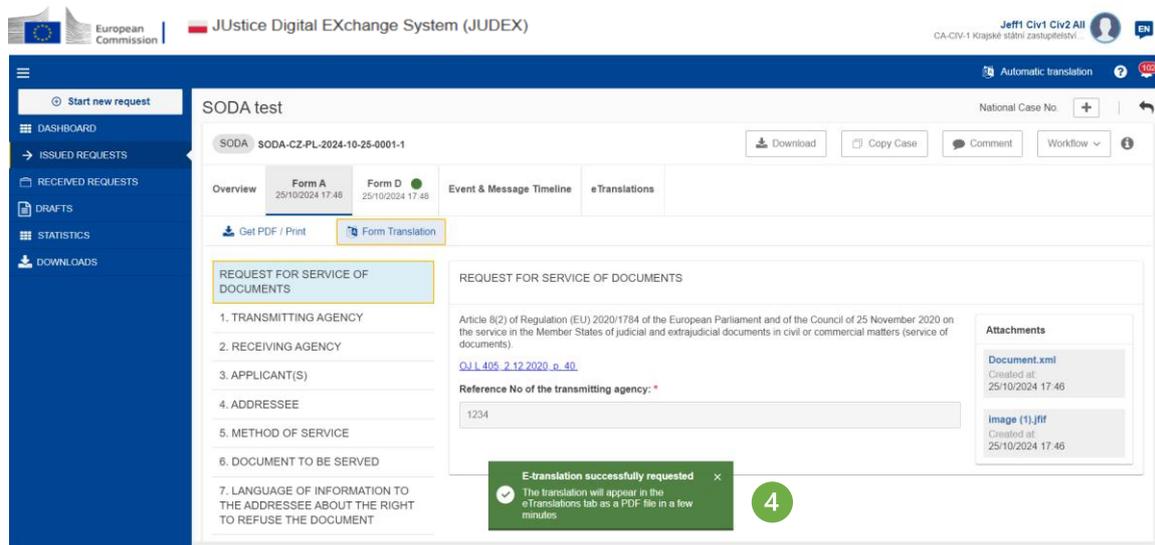

Figure 424: eTranslation successfully requested toast notification

④ RI displays a toast notification **eTranslation successfully requested**.

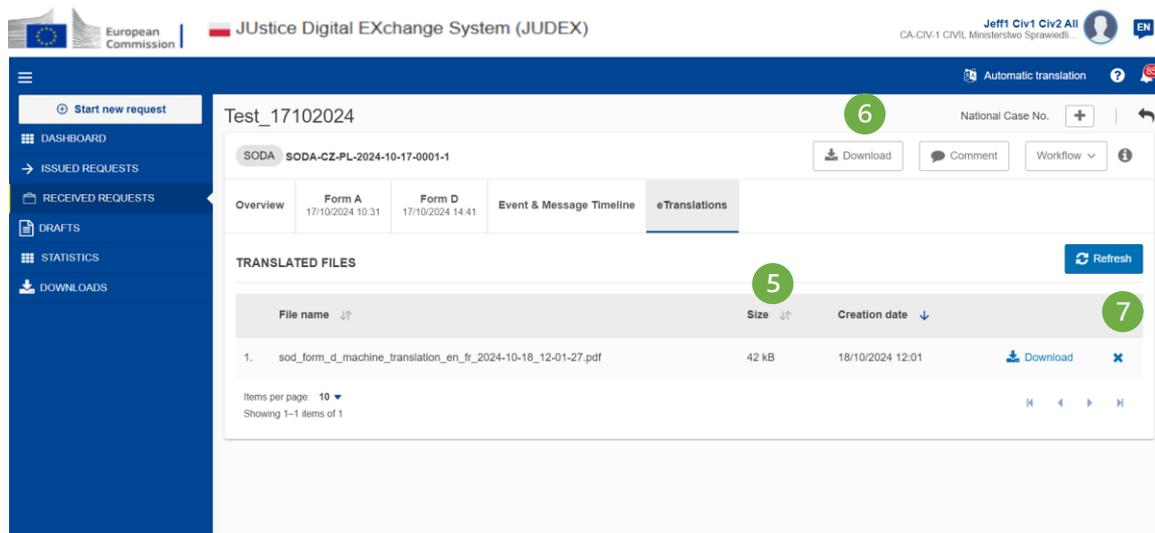

Figure 425: eTranslations folder

⑤ If a user opens **eTranslations** tab, RI displays a table with all requested machine translations (a process of machine translation generation might take a few minutes).

⑥ User can download a file with translation by clicking on **Download** button.

⑦ User can remove a file with translation by clicking on 'x' icon next to this file.

11. REFERENCE IMPLEMENTATION SUPPORT

For usage issues with the Reference Implementation please contact the DG Justice and Consumers Support Team.

The Support Team should be contacted by email:

JUST-SOD-TOE-SUPPORT-TEAM@ec.europa.eu

Please include all relevant information such as your contact details, problem description, type and version number of your internet browser, received error messages, screenshots and any other relevant information.

The Support Team looks forward to receiving further feedback from the Member States so that the Development Team can make additional enhancements to make the Reference Implementation further suited to your needs.
